## CableSnap

Leather cable organizer

These dapper leather wraps keep your cables neatly coiled and tangle-free. Sold in packs of three, each set includes one large and two small cable-managers. Without cable wings on the new MacBook power adapters, your two-meter USB-C charging cable can get unruly fast. Use the large CableSnap to keep it neat and tidy when you're on-the-go. The small snaps are great for things like your Lightning Cable and EarPods/earbuds. Designed to stay put, a strong metal snap keeps each CableSnap securely closed, while the incorporated cable loop keeps your wraps attached to cords when they are uncurled and in use. CableSnaps are available in three colors: Black, Cognac and Marsala.
