Time**Porter**

user guide

Mounting TimePorter

**1** First, clean surface with **rubbing alcohol**. Do not use household cleaners.

**2** Remove liner on the **Command Strips**.

TimePorter
twelve south

3 Carefully position, press and hold for **30 seconds**.

Display up to **6 Apple Watch Bands** by gently pressing them into the soft silicone rail on **TimePorter**.
Adding an additional TimePorter

**1** Carefully remove the **Endcap** on the left or right side of the existing **TimePorter**.

2 Remove the **Endcap** and install the **Bridge Tab** on the merging side of the new **TimePorter**. Do not remove **Command Strip** liner.
3 Remove **Command Strip** liner on capped end and carefully merge the **TimePorters** and than press and hold for **30 seconds**.
Removing TimePorter

1 Carefully remove the **Endcaps** on both sides of the **TimePorter**.

2 You can use the **Endcap** to gently pull and reveal the **Command Strip Tabs**.

3 Pull the **Command Strip Tab** straight outward untill it releases. Repeat on both sides.
