MODEL: L125
Patterned Solar Wall Light | 1LED |
4 Pack | ORBIT

Kit Contents

- 1 x Removable solar panel
- 1 x Decorative frame

The dim mood lighting creates a gorgeous pattern effect against any surface or backdrop. The light comes complete with a built-in intelligent sensor that automatically illuminates at night and turns off at dawn.

Activate the Light

To activate the light, remove the solar panel from the frame using the small opening on the back of the light, allowing you to lift it out. Click the on/off button, then push the solar panel back into the frame. To test the light, hold your hand over the solar panel and checking if the light comes on.

Product Installation

STEP 1 Find a suitable location

Solar lights need access to direct sunlight for optimum results; preferably 6–8 hours per day.

STEP 2 Install the light

Installation - Option 1

For a masonry install.

Using an electric drill (hammer or rotary), make a hole with a 6mm masonry drill piece. Hammer the plug into place then secure the screw.

Installation - Option 2

For a timber install.

Using an electric drill, make a hole with a 3mm drill piece then secure the screw (without the plug).

Specifications

Solar panel	2V / 0.4W
LED Lumens	24–26 lumens
Light Temperature	3000–3200 kelvins
Lithium Battery	400mAh / 1.2V
Charge Time	6–8 hours
Working Time	10–12 hours
Effective Range	1–1.5 meters / 120 degrees

NOTE: if the light does not turn on, this could be due to the battery not being charged. Leave out in direct sunlight for 6–8 hours and try again.

WARNING: do not use underwater or in low lying puddles.
