Decorative Lantern Solar Light

These dynamic solar lights can sit on a table, hang in the garden or with the use of the ground spike, can light up your garden bed. The light emits a dim mood lighting that creates a pretty patterned effect.

Kit Contents

- Lantern Light
- Ground Spike

Product Installation - Option 1: Ground Spike

Screw the ground spike into the thread that's located in the base of the lantern, and then push the spike into the ground.

Product Installation - Option 2: Hanging Handle

All the hard work is done for you! Simply hang the light in your desired location.

Activate Light

To activate the light, lift the round solar panel from the lantern and slide the switch to 'on'. Test the light by covering the solar panel and checking if the light comes on. The built-in intelligent light sensor will illuminate automatically at night and turn off at dawn.

Specifications

SOLAR PANEL	2V
LED LUMENS	2 Lumens
WORKING TIME	6-8 hours
LITHIUM BATTERY	1.2V/300mAh
LIGHT TEMPERATURE	2800-3200K
