Kit Contents

1 x Adjustable Solar Garden Spotlight

Create dramatic lighting effects in your night-time garden with this bright solar spotlight. With the fully adjustable light and solar panel, it is easy to set up for optimum sun exposure and positioning.

Lighting Modes

Main Light & Auxiliary Light
Emits a high beam in yellow and a wide beam in white.

2 Auxiliary Light Emits a wide beam in white.

3 Main Light Emits a high beam in yellow.

Product Installation

Installing the solar garden spotlight.

STEP 1 Find a suitable location

Solar lights need access to direct sunlight for optimum results, preferably 6-8 hours per day. Loosen the nut to adjust the angle and tilt of the solar panel for maximum sun exposure. Re-tighten to secure.

STEP 2 Assemble the ground spike

Assemble the 2 ground spike components, then push into the base of the light. There are nuts on the spike, light and solar panel, allowing you to adjust the direction of each component to suit.

STEP 3 Turn on the light

To activate the light, turn on the switch on the back of the unit. Test by covering the solar panel completely to check that the light comes on. The light is now ready for use.

Be sure to clean the solar panel periodically to maintain optimal performance.

Specifications

Size	Light - 100w x 75h x 110d mm, Spike - 350 h mm
LED Lumens	Main & Auxillary lights - 36, Main light - 33, Auxillary light - 33
Light Colour	Main light - warm, Auxillary light - cool
