HOSELINK[®]

Kit Contents

1 x Wall Light
2 x Plugs
2 x Screws

Use this modern style solar light to gently light your outdoor space. The light turns on automatically at dusk and off at dawn, making it perfect for illuminating walkways, entrances and entertaining areas.

Activate the Light

To activate the light, unscrew the plastic base and click the button. Test the light by covering the solar panel and checking if the light comes on.

Product Installation

STEP 1 Find a suitable location

Solar lights need access to direct sunlight for optimum results; preferably 6–8 hours per day.

STEP 2 Install the light

Installation - Option 1

Using adhesive outdoor tape.

Adhere using Hoselink Outdoor Acrylic Double-Sided Tape (SKU L100), sold separately. Be sure to stick the tape onto the stainless-steel plate on the back of the light.

Installation - Option 2

Using supplied hardware.

Use a 6mm drill piece for masonry installation. Once your hole is drilled, gently hammer the plugs into place and then secure the screws tightly. For timber, use a 3mm drill piece without the plugs. Hang the light and enjoy.

Be sure to clean the solar panel periodically to maintain optimal performance.

Specifications

Solar panel	0.5W
LED Lumens	5–6 lumens
Light Temperature	3000 kelvins
Lithium Battery	600mAh / 1.2V
Charge Time	12 hours
Working Time	6–8 hours

NOTE: if the light does not turn on, this could be due to the battery not being charged. Leave out in direct sunlight for 6–8 hours and try again.
