T W E E Z E R S

Tronex precision cutters and pliers are known all over the world for their unmatched quality, performance, comfort and value. Now Tronex has introduced a variety of precision and economy tweezers to our customers.

With an emphasis on quality craftsmanship, Tronex has sourced the best available tweezers, produced to exacting standards by toolmakers who have been producing tweezers for decades.

All tweezers offered by Tronex are inspected and tested in our USA facility by Tronex experts.

Symbol	Technical Description	Corrosion Resistance	Hardness and Resistance to Wear	Magnetic Properties
T	Titanium	Excellent	Very Good	Totally Non-Magnetic
SA	316L Austenitic Stainless Steel	Excellent	Good	Non Magnetic*
SP	17-4 Martensitic Stainless Steel	Very Good	Very Good	Non Magnetic*
SM	304 Austenitic Stainless Steel	Very Good	Very Good	Non Magnetic*
S2	302 Austenitic Stainless Steel	Good	Good	Non Magnetic*
S10	410 Martensitic Stainless Steel	Ok	Very Good	Magnetic
S40	440 Martensitic Stainless Steel	Ok	Very Good	Magnetic
C	Carbon Steel	Subject to corrosion in humid environments	Excellent	Magnetic

*Austenitic Stainless Steel can occasionally become slightly magnetic from cold working as well as from slow cooling. If magnetism is critical, Titanium is the best choice.

PRECISION TWEEZERS

Tronex USA Tweezers:

Tronex USA tweezers are made from 17-4ph stainless steel ideal for resistance to wear and corrosion. These tweezers are made to very exacting standards with extremely precise tips and finishing.

Tronex Swiss (CH) Tweezers:

Tronex CH tweezers are made in Switzerland by a manufacturer who has been making tweezers for decades. They are made from high quality 316L stainless, making it very rust, chemical and acid resistant. They feature excellent craftsmanship and very precise tips.

Vomm SA & ESD Safe Tweezers:

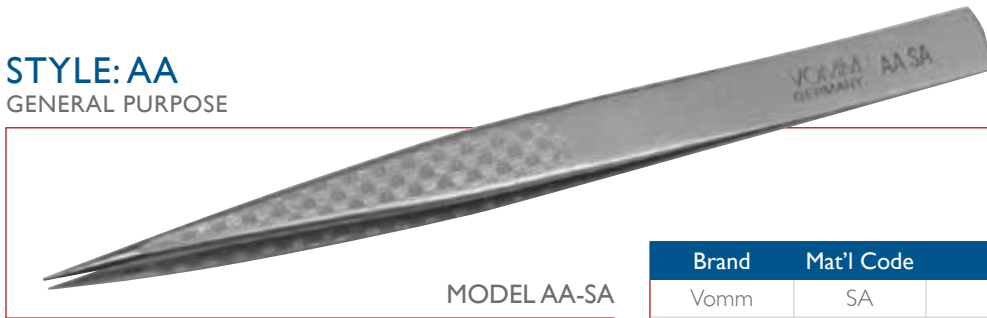

Tronex has partnered with the famous German tweezer manufacturer Vomm to represent Vomm in North America exclusively. Vomm has been manufacturing precision tweezers in Germany for over 50 years.

Tronex Italy (M) Tweezers:

Tronex Italy tweezers are made from 316L stainless steel. They feature good craftsmanship and excellent value.

TITANIUM TWEEZERS

Tronex Titanium tweezers are ideal for many clean room, chemical applications, and more humid environments. They are a particularly good choice when using magnetic materials, handling sensitive components and when soldering. Titanium tweezers hold their precise shape extremely well, are totally non-magnetic, are rust proof and can handle very high temperatures.

- Very light weight (40% lighter than steel)
- Very strong
- Totally non-magnetic
- Hypo-allergenic
- Rust proof
- Very acid resistant

- 40% lighter than steel
- Does not shed particles like steel
- Temperature resistant up to 800 Degrees F
- Solder does not adhere
