

How to activate software option

To activate the software option, you have to enter a license key for activation. You can find the license key at the bottom.

1. Press the “**System**” key to enter the setup menu.
2. Select the “**System**” menu item.
3. Select the “**Option**” menu item.
4. Select the option("EMI") which wants to be activated.
5. Input the license key with the alphanumeric keys and click the “**ENTER**” key.
(ps: The license key is a 40-digit number.)
6. Restart the unit and check that the option is listed in the System Information
