# ADORED BEAST

**APOTHECARY**

## LOVE BUGS

## PRIMARY CONCERNS

Allergies, ear infections, chronic infections, immune system issues, digestive disturbances, yeast infections, and gingivitis/oral health.

## LOVE BUGS

## PRIMARY CONCERNS

Allergies, ear infections, chronic infections, immune system issues, digestive disturbances, yeast infections, and gingivitis/oral health.

## THE SUPPORTIVE SOLUTION

Helps to support all of the above issues by assisting in rebalancing the immune system and supporting proper gut health, the natural digestive process, skin, ear, and oral health.

## LOVE BUGS

## PRIMARY CONCERNS

Allergies, ear infections, chronic infections, immune system issues, digestive disturbances, yeast infections, and gingivitis/oral health.

## THE SUPPORTIVE SOLUTION

Helps to support all of the above issues by assisting in rebalancing the immune system and supporting proper gut health, the natural digestive process, skin, ear, and oral health.

## ALSO GREAT FOR

Topical skin mask applications and toothpaste.

**LOVE BUGS**

**DAILY ESSENTIAL**

**Love Bugs is a Daily Essential!**

**Think of the gut as a garden...**

**Probiotics are the flowers, creating a friendly and healthy environment. Prebiotics are the food/fertilizer that help the flowers grow and thrive.**

# LOVE BUGS

## DAILY ESSENTIAL

Did you know...?

**80-90% of immune health is managed by gut bacteria.**

# LOVE BUGS

## DAILY ESSENTIAL

### Challenges

Some of the challenges to gut bacteria are antibiotics, flea and tick treatments, diets devoid of live friendly bacteria, and hereditary insufficiencies.

**LOVE BUGS**

**DAILY ESSENTIAL**

## The Perfect Blend of Pre and Probiotics

Love Bugs has 14 hand-picked strains of probiotics based on years of clinical experience.

Probiotics are “friendly” bacteria that counter-balance dangerous disease-causing bacteria.

**LOVE BUGS**

**DAILY ESSENTIAL**

## The Perfect Blend of Pre and Probiotics

The prebiotic Larch helps to nurture the perfect environment for probiotics to form colonies of good, healthy bacteria in the gut.

In our opinion, Larch is the most species-oriented prebiotic, and research supports its ability to decrease metastasis of tumours and help modulate the immune system.

# LOVE BUGS

## Love Bugs Probiotic Dental Paste

It's super easy to make this. Ready?

- **Small Dog (or Cat)** - mix together 1 tsp of coconut oil and 1/16 tsp of Love Bugs
- **Large Dog** - you may need more, up to a tablespoon

# LOVE BUGS

## Topical Skin Mask

- 1/2 tsp Love Bugs
- 3 tbsp organic kefir or yogurt

You can increase the amount of yogurt/kefir as needed for the size of your dog. Leave on at least 1/2hr then rinse with just warm water.

## INGREDIENTS

**14 strain probiotic blend**

**30 billion CFUs  
(colony forming units)**

**Prebiotic Larch Arabinogalactian**

## DIRECTIONS

---

Good for dogs, cats and horses

## DIRECTIONS

---

Good for dogs, cats and horses

Can be given during or after meal time  
once per day according to your  
animal's body weight.

Good for dogs, cats and horses

Can be given during or after meal time once per day according to your animal's body weight.

Lactose free

## DIRECTIONS

---

Good for dogs, cats and horses

Can be given during or after meal time once per day according to your animal's body weight.

Lactose free

Love Bugs is freeze-dried, so while refrigeration isn't necessary, it may help maintain optimal freshness.

## DIRECTIONS

To give Love Bugs pre and probiotics, add to food once per day (dosages vary depending on the size of your animal)

**Weight = 1- 29 lbs**

**0.25 tsp** | **1** x / per day

**Weight = 30-59 lbs**

**0.50 tsp** | **1** x / per day

**Weight = 60-89 lbs**

**0.75 tsp** | **1** x / per day

**Weight = 90+ lbs**

**1 tsp** | **1** x / per day

## **SUCCESS STORIES**

**Amazing!!**

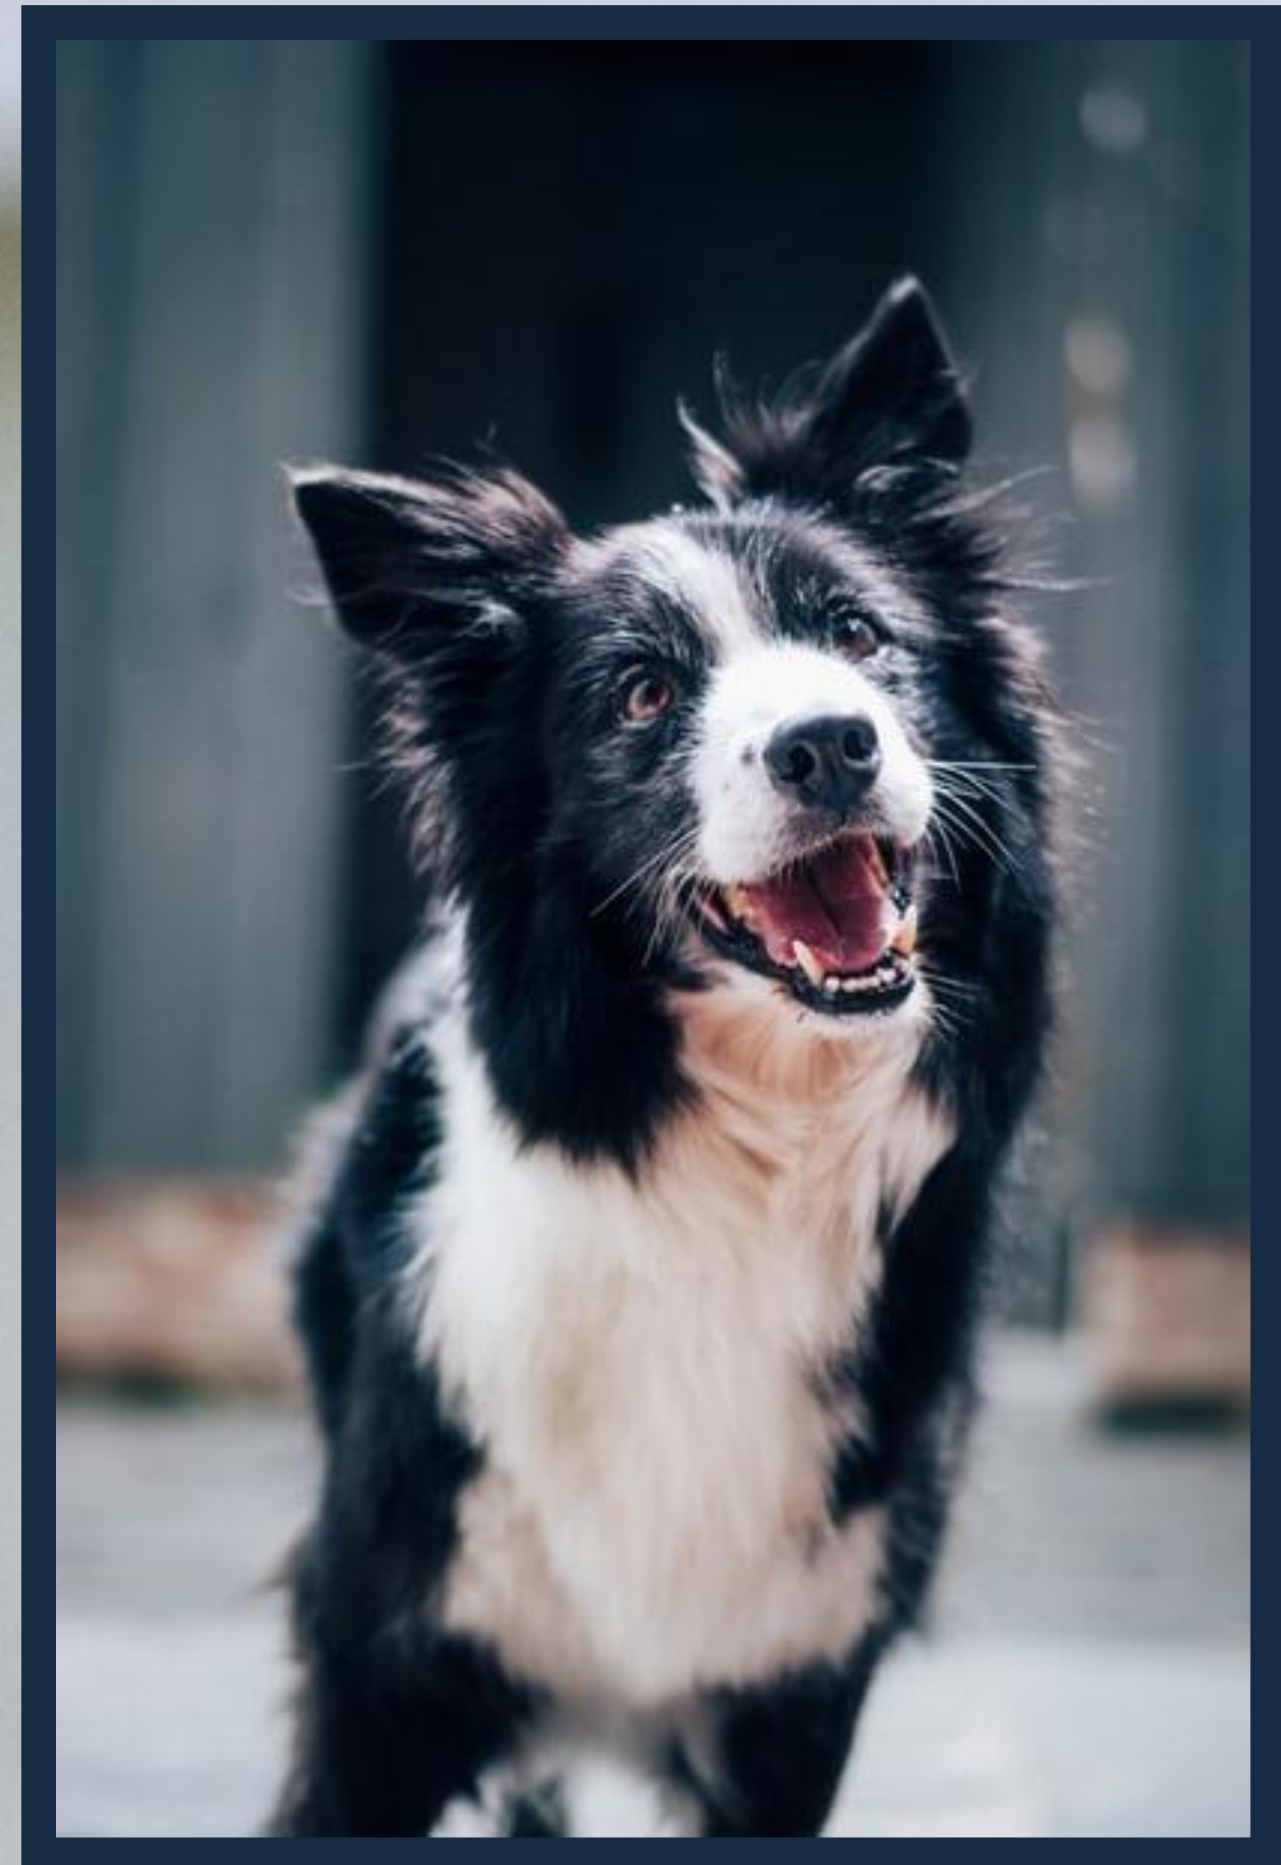

**I rescued my little Morkie (Maltese/Yorkie) from a pup mill and he had some digestive issues, vomiting every time he ate. His poor little stomach wouldn't keep a thing down. I added this product to his food and the last 2 years he's been doing amazing... definitely recommend this product.**

**- Tabitha S.**
