GUT SOOTHE

DAILY ESSENTIAL

Gut Soothe can be used Daily

Think of the gut as a garden...

Probiotics are the flowers, creating a friendly and healthy environment. Prebiotics are the food/fertilizer that help the flowers grow and thrive.

The proprietary blend of herbs helps reduce and SOOTHE inflammation.

GUT SOOTHE

Fact:
The gut is responsible for 80% of the immune system. So it's important that we keep it healthy!

Amazingly effective in aiding the treatment of chronic vomiting, constipation, diarrhea and hairballs in cats

Marion ★★★★★

“I started my cat, Katie on the Gut Soothe for her irritable bowel condition. What surprised me was that the product started to work that very day. She is now on 1/8th of a teaspoon once a day and is doing extremely well.”

SUCCESS STORIES

Koda is 8 months old and has had nothing but intestinal issues since he contracted Parvo at only 9 weeks old.

Since then his immune system has been weak and has contracted more viruses such as corona virus and giardia. His tummy just hasn't been healthy or normal, diarrhea most days.

Thank you to the Bone And Biscuit for working with us and introducing us to Adored Beast.

The gut soothe has turned Koda's gut a complete 180. It has made a world of a difference and I am so happy my pup has overcome so much. Thank you!

SUCCESS STORIES

Vicky ★★★★★

“ABSOLUTELY GREAT !!!!

Been buying Gut Soothe for about 2 years. It’s great for just about anything. Started it for digestive issues. Results were almost instant and my little dog BabyGirl loves it. No problem at all with feeding it to her because she’s kinda a picky eater.... not any more. All your products are great and I really trust you guys. I don’t buy anything for her from any other website.”
