Natural Beds

Materials & Certifications

Organic Dunlop Latex

Organic latex is uniquely strong and durable while also being very comfortable and healthy. With its natural elasticity, latex supports and conforms to the geography of the body and is safe and hypoallergenic for just about everyone.

Organic Wool

Soft and resilient, the naturally complex structure of wool is unmatched by anything synthetic. Its natural crimp acts like a spring, continually bouncing back to its original shape. Wool also acts as an incredible insulator, surrounding the body with a layer of air that adjusts to your body temperature.

Organic Cotton

Cotton is durable and strong, and it provides plenty of firm support with just enough flexibility to be a great natural and firm support for your head. As with all of our materials, we cross-align layers to provide a consistent even surface.

Organic Wool Bolus

Organic wool bolus is pre-felted, which means you can wash the whole pillow. Accidents, spills, spit-up: all can be washed away and your child still gets the wonderful benefits of organic wool. Wool bolus is also incredibly malleable, forming to the shape of your head and allowing you to scrunch and shape it.

Organic Buckwheat

The granular nature of buckwheat allows air to pass through them, keeping your head cool during the night. Unlike many other pillow fills, organic buckwheat hull pillows will not collapse or lose volume while you sleep, providing sustained support for the neck, head, and shoulders all night long.

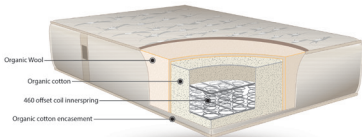

Organic Kapok

Kapok fiber stays fluffy and light without absorbing body moisture, and it is practically impervious to mold, mildew, or decay. The inability of kapok fiber to absorb moisture also makes it an inhospitable environment for dust mites, so kapok can help to control allergies.

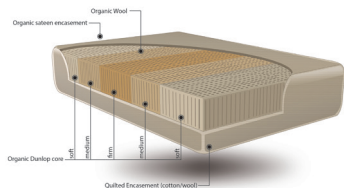

Mattresses

Queen	2518.95
King	2833.95
Cal. King	2865.45

Balsa

The Balsa is not a “flip-able” mattress as the bottom is not quilted, but it offers the same support as our classic latex mattresses. At a great low price point, this non-toxic, chemical free bed is ideal for kids transitioning up the sleeping ladder, and young adults considering their first quality, nontoxic mattress purchase.

“We’re five years into sleeping on our latex mattress with this topper and couldn’t be happier.”

-HC, Jan. 2017

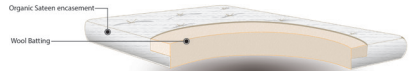

Toppers

Wool Topper

A 2-inch topper filled with multiple layers of organic wool batting — a blend of eight breeds of sheep’s wool. The outer encasement is made with silky-soft organic cotton sateen case, and hand tufted.

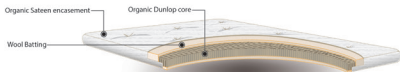

Twin	733.95
Twin XL	768.45
Full	838.95
