

INDUSTRY PRESS RELEASE

Vitec Creative Solutions Acquires Amimon Inc.

November 9, 2018 (Irvine, CA, USA and Ra'anana, Israel) – Creative Solutions, a Division of The Vitec Group plc, is pleased to announce the acquisition of Amimon Inc., a wireless video technology provider. Amimon is the innovative company whose proprietary technology is found inside many products built by Creative Solutions including products from Teradek, SmallHD and Paralinx, as well as those from other manufacturers. Teradek is the world leader in wireless video products created for the cinema market.

“We have had a deep, collaborative relationship with Amimon since 2012, when we created a worldwide market for zero-delay wireless video,” said Nicol Verheem, founder of Teradek and CEO of Creative Solutions. *“This acquisition is the logical step to enable the next generation of wireless video tools. Integrating our organizations will accelerate the development of innovative new products, further simplifying video production workflows and allowing new creative freedom to our customers. It will also allow us to invest to expand the reach of our products into adjacent markets.”*

Amimon’s patented technology enables instantaneous transmission of uncompressed video across a wireless link. The exclusively-manufactured chipset can be found in productions around the world, in the highly respected Teradek Bolt and SmallHD wireless video monitors.

“Creative Solutions is a great fit for Amimon. Our innovative wireless video technology has enabled the Teradek and SmallHD product lines to expand” commented Ram Ofir, President and CEO of Amimon. *“We look forward to our Israel facility becoming primarily a core research and development centre for Creative Solutions to allow us to bring more exciting products to market.”*

Established in 2004, Amimon’s R&D centre is in Ra’anana, Israel, where the majority of its 60 employees are based. Dr. Zvi Reznic, Amimon’s Co-Founder and Chief Technology Officer, and Tal Keren-Zvi, General Manager, VP Operations & R&D will remain with the company to lead the team post-acquisition.

This acquisition is part of Vitec’s strategy to continue to grow the Teradek brand, to bring Creative Solutions products to market faster and to expand further in the on-location sports and news market.

###

A snapshot of The Vitec Group plc

Vitec is a leading global provider of premium branded products and solutions to the fast moving and growing “image capture and content creation” market.

Vitec's customers include broadcasters, independent content creators, photographers and enterprises, and our activities comprise: design, manufacture and distribution of high performance products and solutions including camera supports, camera mounted electronic accessories, robotic camera systems, prompters, LED lights, mobile power, monitors, bags and noise reduction equipment.
