4.How To Use

4.1.General Functions

Desired Result	Required Action
Auto Power On	Simply remove the TrueBuds from the charging Cradle and they will automatically turn on.
Syncing the TRUEBUDS together	Once you remove both TrueBuds from the Charging Cradle they will pair to each other automatically.
Pairing	Use a Bluetooth® enabled mobile phone or other Bluetooth® enabled device to perform necessary pairing actions.
Auto Turn Off	Simply place the TrueBuds back into the Cradle and they will power off on their own; or Press and hold the Multi-Function button for 5 seconds to turn the TrueBuds off. Each TrueBud needs to be turned off individually.
Answering a Call	Press the Multi-Function button on the master TrueBud to answer phone calls, press the Multi-Function button again to end calls. Press earbud 2 seconds to reject calls.
Play / Pause Music	Pause a track by pressing the Multi-Function button; push it again to resume the track.
Previous Track Next Track	Double Click on the Right earbuds to skip to the next track. Double click the left earbuds to go back to the previous track.
Volume Control	Press and hold the left earbud for 2 seconds to increase the volume. Press and hold the right earbud for 2 seconds to lower the volume.

4.2 Syncing

• To use your Bluetooth® Stereo TRUEBUDS, you must first pair your TRUEBUDS to a Bluetooth® enabled device. Once your Bluetooth® TRUEBUDS are paired to a smart device, they will remain paired and automatically, and recognize each other whenever they are within range.

• To switch on and sync the TrueBuds together simply remove them from the charging cradle and they will turn on automatically, the TrueBuds LED light will start to flash red and blue and then they will sync to each other automatically, once they are synced together 1 TrueBud will flash red and blue, and the other will only flash blue, they are now ready to be paired with a Bluetooth compatible device. Be sure that your devices Bluetooth function is turned on.

• Search for the TRUEBUDS using a Bluetooth compatible device. Select "TrueBuds Ace" from the list of devices to connect and pair. Once paired the TrueBuds will prompt you "Bluetooth device is connected successfully"

• To unpair or remove a Bluetooth compatible device from the TRUEBUDS turn off the Bluetooth function on the compatible device. The TRUEBUDS can now be paired with a new compatible device.

• Note: Pairing mode will last for 10 minutes. If no Bluetooth devices are paired with in this time, the **TrueBuds** will automatically power-off .

4.3 Charging your Stereo TRUEBUDS

The Charging Case is fitted with a 300 mAh rechargeable battery (non-removable). It's recommended that the battery is fully charged before first use; this will take about 2 hours. Connect the Micro USB end of the USB charging cable in to the Micro USB port on the charging case and the other end to a compatible USB Wall Charger or PC. While Charging the LED indicator light on the charging case will flash Blue. Once the battery has fully charged, the LED indicator lights will remain solid blue.
Carefully disconnect both ends of the USB charging cable and store it safely for future use. The TRUEBUDS are each fitted with a 40 mAh rechargeable battery (non-removable). It is recommended that the battery is fully charged before first use; this will tale approx. 1 hour.

To charge the Truebuds, carefully place each Truebud into it's respective earphone slot. Once inserted the LED indicator lights on the charging case will illuminate blue. While charging the LED indicator lights on the Truebuds will illuminate red. Once the Truebuds have fully charged, the LED indicator lights will illuminate blue on the case.

6.FAQ

1. Both TrueBuds Power on, but only 1 earbud has sound?
Ans. Delete ("forget") the TrueBuds connection from your smart device and turn off your smart device's Bluetooth connection. Power off the TrueBuds completely and wait 10 seconds. Place the TrueBuds back into the charging case and wait 10 seconds. Remove both earbuds from the charging case, and they will power on automatically. Press and hold the function button on both earbuds at the same for 3 seconds. After 3 seconds release the function button at the same time and the TrueBuds will enter the automatic pairing mode. After 1 to 2 seconds the right earbuds LED light will start to flash red and blue, and the left earbud LED light will only flash blue slowly. Once they are paired successfully you will hear a voice prompt say connected. Turn on the Bluetooth on your phone and search for TrueBuds Ace, it should only come up one time. Connect to " TrueBuds Ace" and now your TrueBuds should be paired with your device and ready to use.

2. Only 1 TrueBud powers on?
Ans. Press and hold the Truebud the does not light up until the LED light starts to flash on. The other TrueBuds should also be powered on. Now place both TrueBuds in the charging case at the same time and wait 3 seconds and then remove them from the charging case, they will turn on and pair automatically.

3. Why is there no power even when the TrueBuds are turned on?
Ans. Enusre the battery has been charged up to 2 hours for initial use.

4. There is no sound during playback?
Ans. Check the connection between the TrueBuds and your smart device if the connection is not established please connect again. Make sure the TrueBuds are paired with your Bluetooth enabled device.

5. Can I use one TrueBud at a time?
Ans. Yes, if you would like to use only one TrueBus at a time then simply turn on the side you want to use and make sure the other TrueBud is powered off, your music and phone call will only play in mono sound.
