

Product Introduction

Items	
1	3 x 7 Watts Solar Panel
2	Built-in Charge Controller
3	Micro USB cable
4	2 x USB Output

Introduction

This portable solar panel comes 2 USB outputs inside the pouch. To charge your phones and tablets, simply lay out the solar panel in direct sunlight, the red LED on the USB module should light up meaning the solar panel is generating power. Plug your phone into one of the USB ports and start charging.

Features

- Max 21 watts solar panel
- Highly portable
- Charges a large variety of electronics

User's Guide

After receiving the solar panel kit, please check if all accessories are included in the package and prepare to test your kit:

1. Locate a sunlit area clear from hanging branches or obstacles.
2. Unfold the solar panels and face the front towards the sun.

Tip: To obtain the maximum output power of solar modules, it is recommended to adjust the solar modules based on solar trajectory.

Frequently Asked Questions(FAQ)

ACOPower is always open to customers with technical support, if you have any issues, please feel free to contact ACOPower by email at support@acopower.com
Here we collected some frequently asked questions for reference:

Q: Can I use both USBs at the same time?

A: Yes.

Q: What does it mean when the red light is on?

A: It means the solar panel is generating power and the USB ports are powered.

Q: What kind of protection does it have?

A: It has overcharge and short-circuit protection.

Q: How long does it take for the solar charger to charge a phone fully?

A: It depends on the cell phone's battery capacity.

Q: Are the foldable solar modules are waterproof?

A: Because the system contains sophisticated electronic components, please prevent water from contacting the module during use.

Q: Is the charge controller waterproof, what is IP rate for that?

A: No, the charge controller is not waterproof.

Safety Tips

- Before using the product, read all safety precautions.
- If the product is abnormal or damaged, do not use.
