

MCM HOUSE

FURNITURE MEASURING GUIDE

01 CHECK PRODUCT DIMENSIONS

- Our website provides width, depth and height for every piece of furniture.
- Furniture width must be less than the height of any doorway, stairway or hallway that the item will need to pass through.
- Furniture is measured at the tallest, deepest and widest points of the product. This includes arms, overhangs, and feet!

02 MEASURE YOUR SPACE

Identify where you intend to place your furniture and make sure it will fit in the space that you have chosen. Consider marking out the width and depth of your furniture on the floor with painters tape, books, or anything else that will give you an idea of scale.

03 MEASURE THE PATH FOR DELIVERY

- Measure the heights and widths of entryways and hallways both inside and outside your home.
- Measure your entry clearance - the distance from the wall, through to the doorway to the opposite wall.
- Factor in ceiling height, stairways, banisters, corners, and low hanging lights.
- Determine the best pathway from outside your home to the room where your new piece will be placed. (Please be sure to account for any architectural details when taking measurements)

DOORWAYS

- Measure the width and height of all doorways
- How wide can your door open?
- Check for architectural details that affect access

STAIRWAYS

- Measure the width of stairway including handrails or posts
- Measure the height from top and bottom stairs to ceiling

HALLWAYS

- Measure the width of hallways
- Look for any low hanging lights or architectural details

04 PLEASE NOTE

Please make sure you take the time to measure and check your access, to ensure the items can fit through your doors / lift / stairwell. Our product dimensions are shown under 'specifications' on the product page on our website.

Please note If the item you have purchased does not fit and therefore cannot be placed in your home, this will result in a re-stocking fee to return your item, along with forfeiting the delivery fee already paid. Re-stocking fees are: Core Range items = 20% of the RRP and Made to Order items = 50% of the RRP.
