KANNA  **SWISS**

It is best not to drink, eat or smoke approximately 5 minutes before or after using CBD.

Please stand in front of a mirror so you can see how many drops you are consuming. If you are using the measured pipet, then drop the right quantity under the tongue.

Let it sit there between 1-2 minutes for the best bioavailability then swallow. The minimum recommended dose is 20mg for each application. The optimum recommended dose is 30mg.

If you are using the spray, 10 ml bottle has 75 pump/spray and therefore each pump/spray is equal to ~ 16mg of CBD.
