Please stand in front of a mirror so you can see how many drops you are consuming. If you are using the measured pipet, then drop the right quantity under the tongue. 10 drops are 1/2 ml & have 30mg CBD.

Let it sit there between 1-2 minutes for the best bioavailability then swallow. The minimum recommended dose is 20mg or eight drops for each application. The optimum recommended daily dose is 30mg.

If you are using the spray, 10 ml bottle has 75 pump/spray and therefore each pump/spray is equal to ~ 8mg of CBD.
