STORAGE:

Store away from children, sunlight, heat and humidity.

Batch : November 2019 | Use by : August 2021

It is best not to drink, eat or smoke approximately 5 minutes before or after using CBD.

Please stand in front of a mirror so you can see how many drops you are consuming. If you are using the measured pipette, then drop the right quantity under the tongue. Five drops are 1/4 ml & have 30mg CBD.

Let it sit there between 1-2 minutes for the best bioavailability then swallow. The minimum recommended dose is 20mg for each application. The optimum recommended dose is 30mg.

If you are using the spray, 30 ml bottle has 225 pump/spray and therefore each pump/spray is equal to ~ 16mg of CBD.
