Our Favorite Places to Buy Throw Pillows

Elsie Home

Six years ago, Lauren Meichtry launched [Elsie Home](#) with a mission to bring responsibly-made, high-quality throw pillows to the masses. Along with offering a carefully curated collection of Meichtry's handstitched throw pillow designs—think Belgian linen floral prints and wool, alpaca, and mohair styles—the site offers a [lifetime guarantee](#) for every purchase. "Think of pillows as you would an accessory you add to an outfit," she says. "Accessories are used to express personality and pillows are no different."
