WARNING

- To prevent damaging the door gasket, make sure to have the door all the way opened when pulling shelves out of the rail compartment.
- The appliance must be positioned so that the plug is accessible. Release the electric cord. Move your cabinet to its final location. Do not move your Cabinet while loaded with beverage and wine. You might distort its body. The Beverage Cooler should be installed in a suitable place in order to avoid touching the compressor with hand.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- If the supply cord is damaged, it must be replaced by manufacturer of its Service agent or a similarly qualified person in order to avoid a hazard.

PLEASE DON'T TRY TO PLUG INTO OR EXTENSION THE CABLE IN ANY CASE.

IMPORTANT SAFETY INSTRUCTIONS

⚡WARNING⚡	To reduce the risk of fire, electrical shock, or injury when using your appliance, follow these basic precautions:
<ul style="list-style-type: none">• Read all instructions before using the Beverage Cooler.• DANGER or WARNING: Risk of child entrapment.• Child entrapment and suffocation are not problems of the past. Junked or abandoned appliances are still dangerous even if they will “just sit in the garage a few days”.• Before you throw away your old Beverage Cooler: Take off the door. Leave the shelves in place so that children may not easily climb inside.• Never allow children to operate, play with, or crawl inside the appliance.• Never clean appliance parts with flammable fluids. The fumes can create a fire hazard or explosion.• Do not store or use gasoline or any other flammable vapors and liquids in the vicinity of this or any other appliance. The fumes can create a fire hazard or explosion. Do not store explosive substances such as aerosol cans with a flammable propellant in this appliance.• WARNING: Keep ventilation openings, in the appliance enclosure or in the built-in structure, clear of obstruction;• WARNING: Do not use mechanical devices or other means to accelerate the defrosting process, other than those Recommended by the manufacturer;• To avoid a hazard due to instability of the appliance, it must be fixed in accordance with the instructions.• WARNING: Do not damage the refrigerant circuit;• WARNING: Do not use electrical appliances inside the food storage compartments of the appliance, unless they are the type recommended by the manufacturer. • If the refrigerant of these appliances are R600a, Flammable and explosive articles should not be put in or near the cabinet, to avoid the fire or explode caused. <p style="text-align: center;">-Save these instructions-</p>	

UNPACKING AND INSTALL THE DOOR HANDLE

Remove the exterior and interior packing materials.

Install the door handle provided with the appliance by following these steps:

Step 1 — Remove the gasket at the inner side of the door to expose the two screw holes.

Step 2 — Install the handle tightly with the screws and washers provided.

Step 3 — Tidy and restore the gasket.

INSTALLATION INSTRUCTIONS

➤ Before Using Your Beverage cooler

- Remove the exterior and interior packing.
- Before connecting the Beverage cooler to the power source, let it stand upright for approximately 24 hours. This will reduce the possibility of a malfunction in the cooling system from handling during transportation.
- Use a soft cloth to clean the interior surface with lukewarm water.
- This appliance is intended to be used in household and similar applications such as
 - Staff kitchen areas in shops, offices and other working environments;
 - Farm houses and by clients in hotels, motels and other residential type environments;
 - Bed and breakfast type environments;
 - Catering and similar non-retail applications.
- When disposing your appliance, please choose an authorized disposal site.

➤ Installation of Your Beverage cooler

- This appliance is designed to be for free standing installation or built-in (fully recessed) (Refer to sticker location the back of this appliance).
- **This appliance is intended to be used exclusively for the storage of wine or beverages.**
- Place your Beverage cooler on a flat floor that is strong enough to support it when it is fully loaded. To level your Beverage cooler, adjust the front leveling leg at the bottom of the Beverage cooler.
- This appliance is using flammability refrigerant. So never damage the cooling pipework during the transportation. Locate the Beverage cooler away from direct sunlight and sources of heat (stove, heater, radiator, etc.). Direct sunlight may affect the acrylic coating and heat sources may increase electrical consumption. Extreme cold ambient temperatures may also cause the unit not to perform properly.
 - Avoid locating the unit in moist areas.
- Plug the Beverage cooler into an exclusive, properly installed-grounded wall outlet. Do not cut or remove the third (ground) prong from the power cord under any circumstances. Any questions concerning power and/or grounding should be directed toward a certified electrician or an authorized Products service center.

➤ Attention

- Store beverage and wine in sealed bottles;
- Do not overload the cabinet;
- Do not open the door unless necessary;
- Do not cover shelves with aluminum foil or any other shelf material which may prevent air

circulation;

- Should the Beverage cooler be stored without use for long periods, it is suggested to leave the door ajar to allow air to circulate inside the cabinet after a careful cleaning, avoiding possible formations of condensation, mold or odors.

➤ **Ambient Room Temperature Limits**

This appliance is designed to operate in ambient temperatures specified by its temperature class marked on the rating plate.

Class	Symbol	Ambient Temperatures range (°C / °F)
Extended Temperate	SN	+ 10°C / 50 °F to + 32°C / 89.6°F
Temperate	N	+ 16°C / 60.8°F to + 32°C / 89.6°F
Subtropical	ST	+ 16°C / 60.8°F to + 38°C / 100.4°F
Tropical	T	+ 16°C / 60.8°F to + 43°C / 109.4°F

Description of product model

Model	Description
JC-85C	94 cans single zone beverage cooler
JC-145C	164 cans single zone beverage cooler

The standard can as below:

The stated loading capacity is based on the standard-size soda drink with 2.6" in diameter and 4.84" in height.

STORAGE

- To prevent damaging the door gasket, make sure to have the door opened fully all the way before pulling the shelves out.
- Please store beverage and wine in sealed bottles.
- Should the beverage cooler be left empty for long periods it is suggested that the appliance is unplugged, and after careful cleaning, leave the door ajar to allow air to circulate inside the cabinet in order to avoid possible condensation, mold or odours forming.
- Recommended Temperatures for chilling/storage your wines.

Beverage	4-6 °C / 39-42.8°F
Dry/White Wines	9-14°C / 48.2-57.2°F
Sparkling Wines	5-8°C / 41-46.4°F

LOCK & UNLOCK THE DOOR (FOR OPTION)

Lock is an optional function. If your Beverage Cooler has such function, a key should be attached inside the packing of this Manual.

Insert the key into the lock and turn it counter-clockwise to unlock the door. To lock it, please follow the reversed operation. Please save the key well.

CHARCOAL FILTRATION SYSTEM

Your wine is a living object that breathes through the cork of its bottle. In order to preserve the quality and taste of your fine wines, they must be stored at the ideal temperature and ambient conditions. Your cellar is equipped with an active charcoal filtration system to ensure air purity, cooling efficiency, and to maintain an odor free cabinet for the storage of your beverage and fine wines. The filter assembly is located at the rear panel inside your cellar.

Keep in mind, that this filter must be changed every 12 months and purchase the new one from the distributor.

To replace your filter:

1	Remove the bottles of beverage and wine stored on the two (2) shelves in front of the filter.	 <p>Turn Left to remove filter.</p>
2	Remove the shelves and set aside to be replaced once you have changed the filter	
3	Hold the filter and turn it at 45 degrees in the counter-clockwise direction and then pull it out.	
4	Remove the existing filter and replace with a new one.	
5	Put the new filter into the hole and then turn the filter at 45 degrees in clockwise direction.	

CARE & MAINTENANCE

➤ **Clean your Beverage Cooler**

Turn off the power, unplug the appliance, and remove all items including shelves and rack. Wash the inside surfaces with a warm water and mild solution.

Wash the shelves with a mild detergent solution.

Wring excess water out of the sponge or cloth when cleaning area of the controls, or any electrical parts.

Wash the outside cabinet with warm water and mild liquid detergent. Rinse well and wipe dry with a clean soft cloth.

➤ **Power failure**

Most power failures are corrected within a few hours and should not affect the temperature of your appliance if you minimize the number of times the door is opened. If the power is going to be off for a long period of time, you need to take the proper steps to protect your contents.

➤ **Vacation Time**

Short vacations: Leave the Beverage Cooler operating during vacations of less than three weeks.

If the appliance will not be used for several months, remove all items and turn off the appliance. Clean and dry the interior thoroughly. To prevent odor and mold growth, leave the door open slightly: blocking it open if necessary.

- **Moving your Beverage Cooler:**
 - Remove all items.
 - Take out the loose items inside the Beverage Cooler (such as shelf), or fix the loose items with the foam.
 - Turn the adjustable leg up to the base to avoid damage.
 - Tape the door shut.
 - Be sure the appliance stays secure in the upright position during transportation. Also protect outside of appliance with a blanket or similar items.

- **Energy saving tips**
 - The Beverage Cooler should be located in the coolest area of the room, away from producing appliances, and out of the direct sunlight.

TROUBLESHOOTING GUIDE

If you feel the appliance is out of order, follow these instructions to try to see if you can solve the problem simply by yourself before calling for service.
