# MEDIA LOVE SYE

+100 other media...

«SYE is betting on innovation and high-end finish to seduce customers looking for a new watchmaking experience. The bet seems to have paid off!»

« The watch hit me in [...] 'the feels'. The crispness of the dividing lines between the finishes gifts the SYE MOTION with a superb character. This piece looks fantastic. »

« The watch head has some unique details that give its personality, but the strap itself is what really impressed me. It's a complex and high-end construction that could cost as much as the whole watch itself if a luxury mabrand made it. As someone with some experience in making leather straps, it really impressed me. »

# SYE OWNERS LOVE THEIR WATCH

---

## Why I love SYE'S MOTION Chronograph

My wrist is unusually skinny, and I was unsure if the watch's strap would be too long for me. I reached out to SYE via email regarding my concern, and Arnaud, got back to me almost immediately, assuring me that the strap would fit my chicken wrist for sure.

Sacha Neuberger

## Great Watches, Great Customer Service

SYE contacted me after my purchase, after processing my order, and twice after delivery to make sure I was satisfied. They respond to emails very very quickly for the fact that there's a huge time zone difference between their office and my home. To top it all off my watch arrived days earlier than expected thanks to the diligent processing speed from SYE, and it arrived in perfect condition beyond the quality that could have been conveyed through any photos on the site.

## Excellent end to end experience

Excellent end to end experience. Great communication, out of the box experience and last but not least you are not buying a simple watch but a well designed and high quality one.

Sye is the new brand to be.
