TECHNICAL DIAGRAM

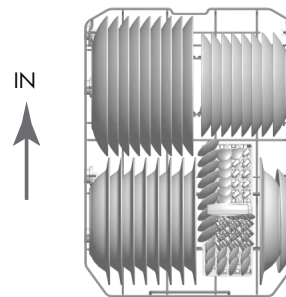

UPPER LOADING

The upper basket is designed to hold more delicate and lighter dishware such as glasses, coffee and tea cups and saucers, as well as small plates and bowls and shallow pans (provided they are not too soiled).

LOWER LOADING

We recommend that you place large items that are most difficult to clean into the lower basket (pots, pans, lids, serving dishes and bowls). It is preferable to place serving dishes and lids on the side of the baskets in order to avoid blocking the rotation of the top spray arm. Pots, serving bowls etc must always be placed top down. The bottom basket features fold-down tine rows so that larger pots and pans can be loaded. Deep pots should be lanted to allow water to flow out.

NB: drawings are not to scale — they are to be used for detailed installation instructions, please refer to user guide.
