7.5 kg Wash / 4 kg Dry Washer Dryer Combo with SteamCure™

**Wash & Wear™ Program** - Got an hour until that important meeting or a promising first date but nothing clean to wear? That's all the time you need to wash and dry 1 kg of laundry (approx. 2-3 shirts) with the Wash & Wear® Program. Now you can have a full outfit ready to wear in an hour.

**SteamCure™ Function** - Using the SteamCure™ function, steam vapour rises from the bottom of the drum and can be selected during certain cycles. Dirt is softened, making it easier to remove and giving better washing results when steam vapour is included at the beginning of the program. When steam is included at the end of the program, it makes laundry softer and reduces creasing.

**Anti-Allergy+ Wash&Dry™** - Thanks to custom drum movements, sensitive temperature control and additional rinse and spin cycles, you can get premium hygienic cleaning results for all your laundry at any temperature (30°C - 90°C).

\*Approved by Allergy UK for common house allergen removal at 60°C

**Recycled Tub** - In our drive to help the planet, we chose to use recycled plastic bottles for the tubs of our Beko RecycledTub™ series of washing machines and washer dryers. In 2019 and 2020 alone, a total of 398 tons\* of recycled plastics found a new life in these products.

\*Parent company production in 2019 & 2020
