Double Down On POWER

2000Pa x2, Laser Navigation, Multi-Floor Mapping

UltraPack Dust-Compression

Powerful suction compacts dust as it collects in the dust box, decreasing the number of times it needs to be emptied, so you can spend more time relaxing.

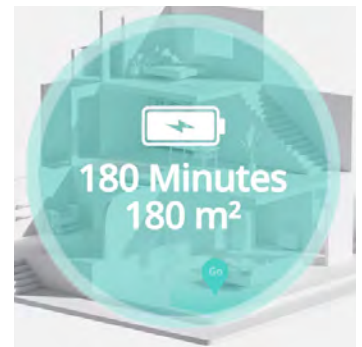

Rolling Brush to the Rescue

Get in between tiles and cracks to thoroughly clean the floor with a specially designed rolling brush that effectively lifts dirt for the Twin Turbines to catch.

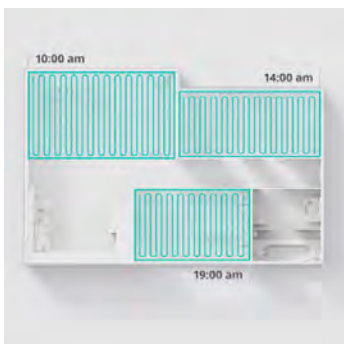

BoostIQ™

Smoothly transition over different surfaces. Automatically increase suction power where necessary to ensure a satisfyingly clean home.

Extended Runtime

Sit back and relax as RoboVac cleans 1 m² every minute for up to 180 minutes per charge, leaving behind stunning floors.

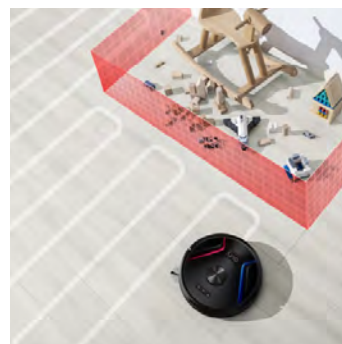

Pick a Room

Only need a certain room to be cleaned? Conveniently select it on the app and RoboVac will get to work right away.

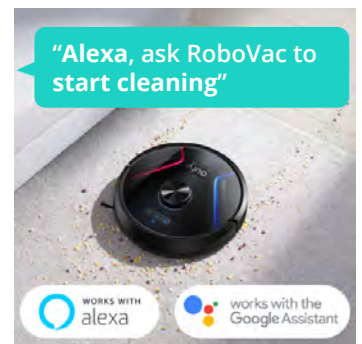

Tap N Go

Easily vacuum accidental messes. Choose a spot that you want to specifically clean and watch RoboVac go and spot clean.

Virtual No-Go Zone

Section off rooms that you don't want RoboVac to enter during its cleaning so it can avoid getting stuck in the messy kids' rooms or the bathroom.

Voice Activated Control

Compatible with the Google Assistant and Alexa. Use voice control assistants to start a clean whenever you want.
