This is an extension of my first typeface. Formerly known as "EPILEPSJA" / now coming as "ACHTUNG". Adding lowercase and SMALL CAPS, as well as additional 🌐 language support including Cyrillic script {кириллица} and some dingbats. ♻️ ACHTUNG color type family has a range of application from ⚠️ WARNINGS and ⚡ safety signage → to PROPAGANDA posters and anarchist graffiti. Every place where you need an INDISPUTABLE message, be it in headlines or titles, this font comes in handy. It's stencil, it's layered and impossibly dimensional. ☹️

Instructions for color typesetting (Adobe):

ACHTUNG Color Type Family consists of four DIY styles (do-it-yourself) and four SVG styles (OpenType-svg). These two types of fonts each have their advantages and disadvantages and choosing one over another should be based on workflow strategy which user wants to imply in their project. **DIY styles are for layered**

text:

- ① Create a point text or text frame.
- ② Type whatever you need.
- ③ Set color of the text you created.
- ④ Copy the text frame or point type.
- ⑤ Paste in place on top of the first text.
- ⑥ Change color and choose a different DIY style for the second layer.
- ⑦ Repeat steps ④ to ⑥ if necessary.
- ⑧ Keep **KERNING** setting on **METRICS** and

don't turn on OPTICAL MARGIN ALIGNMENT.

⑨ If you want to change content of the message or change anything, you have to do it in each layer exactly the same. **PROS:**

User can see the final result all along the workflow. **CONS:** Several text objects have

to be edited instead to achieve one color text, no optical margin alignment. **SVG**

~~styles don't require copying and pasting several times. They are already predefined~~

~~layer combinations:~~ ① Create a point text or text frame. ② Type whatever you need.

③ Create outlines from the type. ④ Change color of the outlines. **PROS:** Faster method,

ability to use optical margin. **CONS:** User cannot change colors before converting

to outlines.

Languages: Afrikaans, Albanian, Bosnian, Bulgarian, Catalan, Croatian, Czech, Danish, Dutch, English, Estonian, Finnish, French, German, Hungarian, Icelandic, Italian, Latvian, Lithuanian, Macedonian, Maltese, Norwegian, Polish, Portuguese, Romanian, Russian, Serbian, Slovak, Slovenian, Spanish, Swedish, Turkish, Ukrainian, Vietnamese, Zulu.
