

THERMO-HVAC THERMOSTAT-RUFF PLATE

THERMOSTAT-RUFF PLATE

Finally, a solution to mounting thermostat wires!

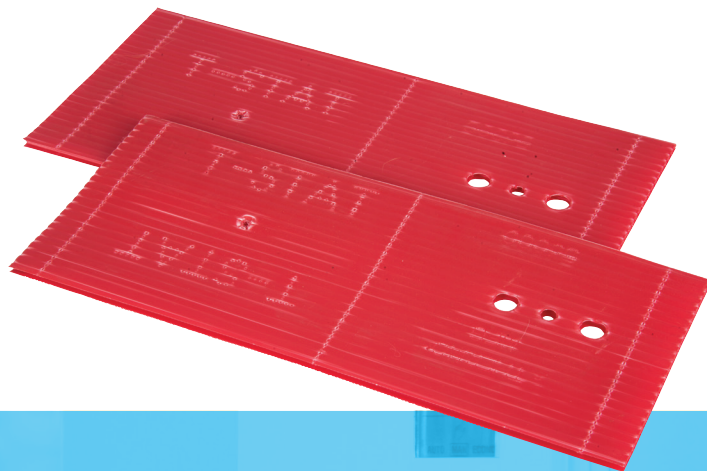

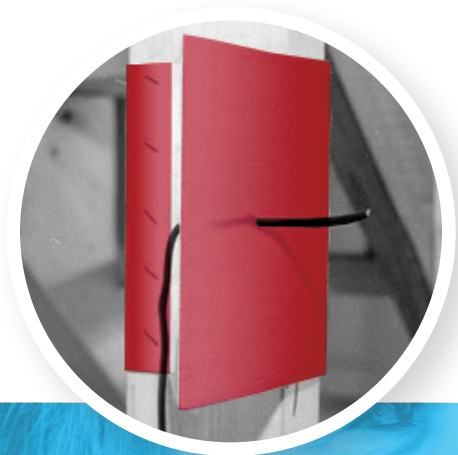

Eliminates inaccurate temperature readings.
Provides an airtight seal around wires.

Finally, there's a solution to mounting those unprofessional looking thermostat wires. The THERMOSTAT-RUFF PLATE™ eliminates inaccurate temperature readings and provides an airtight seal around the wires for accurate temperature control. It also provides space for the contractor's logo or business card.

Features:

- 6" x 6" size fits most all makes and models of thermostats
- Residential and commercial application
- For wood or metal studs
- Provides solid support for sub-base screws
- Keeps wire in middle of stud
- Easy right- or left-hand stud mounting
