FEATURES & INSTRUCTIONS

Wet or Dry Flat Iron

FEATURES

- Innovative, modern and ergonomic design
- Steam venting tourmaline ceramic plates
- 4 temperature control settings up to 430°F/220°C
- Advanced ionic technology
- Dual voltage 110-240V
- 360° tangle-free professional swivel cord

INSTRUCTIONS AND STYLING TIPS

1. Ensure hair is clean and combed through.
2. Plug the iron into a current socket of a voltage specified on the rating plate. The 4 power indicator LEDs around the on/off button will shine, indicating that the iron is powered.
3. Turn the iron on by pressing the on/off button at the top of the iron. The blue LED heating indicator, in front of the button will flash intermittently, indicating that the iron is heating up. When the blue LED stops flashing, it indicates that the iron has reached the set temperature.
4. Adjust to desired temperature by pressing the same button. This button, cycles through the irons heat settings and turns the iron on and off.
5. The iron has 4 heat settings. These are: 160°C=320°F, 180°C=360°F, 200°C=390°F, 220°C=430°F.
6. LEDs on the iron's right side will indicate the temperature setting. The default setting is 430°F/220°C.
7. Separate a 2 inch/5cm (maximum) section of hair.
8. Place the section of hair between the heating plates close to the roots.
9. Hold the hair firmly between the heating plates and slide down the length of hair from root to tip.
10. Repeat as necessary.
11. Allow the hair to cool before combing through.
12. After use, turn off the iron by pressing the on/off Button repeatedly, until the Temp Setting and Heating Indicator LEDs are all off. Unplug the iron from the socket. Allow it to cool before storing.

FEATURES & INSTRUCTIONS

100% Solid Ceramic Flat Iron

FEATURES

- Innovative, modern and ergonomic design
- 100% solid tourmaline ceramic plates
- Variable temperature control up to 450°F-230°C
- Advanced and ionic technology
- Dual voltage 110-240V
- 360° tangle-free professional swivel cord

INSTRUCTIONS AND STYLING TIPS

1. Ensure hair is dry and combed through.
2. Plug the flat iron into a current socket of a voltage specified on the rating plate. Turn the flat iron on using the ON/OFF button on the inside of the iron. The red LED will light, indicating power on.
3. Adjust to desired temperature by using the turn wheel. The Iron has a temperature range between 180°-450°F or 80°-230°C
4. Wait 3 minutes for iron to fully heat before use.
5. Separate a 2 inch/5cm (maximum) section of hair.
6. Place the section of hair between the heating plates close to the roots.
7. Hold the hair firmly between the heating plates and slide down the length of hair from root to tip.
8. Repeat as necessary.
9. Allow the hair to cool before combing through.
10. After use turn off the iron using the ON/OFF button and unplug from socket.
11. Allow the iron to cool before storing.

9. After use turn off the iron using the ON/OFF button and unplug from socket.
10. Allow the iron to cool before storing.

Note: Plates of vibrating flat iron oscillate when they are closed together.

Digital Flat Irons

FEATURES & INSTRUCTIONS

1. Plug the iron in to a current socket of a voltage specified on the rating plate.
2. Press and hold the power button to turn the iron on.
3. The iron has an Auto-Shut-Off feature set for 30 minutes. This setting can be changed by pressing the power button quickly until the number 30 appears. The time can then be adjusted using the (+) and (-) buttons. 120 minutes is the max time. If the time is set to 0, the Auto-Shut-Off is disabled. If the Auto-Shut-Off feature is on, "min" is displayed. If "min" does not appear, Auto-Shut-Off is off.
4. You can toggle the display between Celsius and Fahrenheit by quickly pressing the power button.
5. Adjust the iron to the desired temperature using the (+) and (-) buttons. The maximum temp setting is 232°C or 450°F.
6. Press and hold the power button to turn the iron on.
7. Memory Feature: The iron will store your user settings. When next used, your selected settings will resume.

SAFETY INSTRUCTIONS

READ ALL INSTRUCTIONS BEFORE USING.

KEEP THE UNIT AWAY FROM WATER.

DANGER: As for most electrical appliances, electrical parts are electrically live even if the unit is turned off.

Always hold the flat iron by the handle only!

Do not let the iron touch any other surface when it's hot.

When using electrical appliances, especially when children are present, please always follow the basic safety precautions as listed in this manual.

STORAGE

- Before storing the appliance, let it cool down first.
- Appliance should be kept in a place which is safe, dry and out of reach children.
- Never wrap the cord around the appliance or the cord will wear and break prematurely. Avoid jerking, bending sharply, twisting or straining the cord or plug.

For questions regarding this product, please contact:

TOL, Inc.: support@tolproducts.com
26570 Agoura Rd. Suite #180, Calabasas, CA 91302

USER MAINTENANCE INSTRUCTIONS

- Your appliance is virtually maintenance free.
- Keep heated parts & surfaces clean and free from dust, dirt and chemicals (such as hair spray).
- If cleaning becomes necessary, remember to disconnect the appliance from the power supply and allow to cool, then wipe the exterior with a damp (never wet) cloth. If the cord becomes twisted or tangled, untangle it before use.

WARNING: If any malfunction occurs, DO NOT attempt to repair it. There are no user-serviceable parts.

SAFETY INSTRUCTIONS

For reducing fatal risk by electrocution:

- Always unplug the appliance immediately after using.
- Do not use while bathing or showering.
- Do not place or store the appliance where it can fall or be pulled into a water tub or sink.
- Do not place in or drop into water or other liquid.
- If the appliance falls into water, unplug it immediately. Do not reach into water.

To reduce the risk of burns, electrocution, fire or injury to any person:

- User should not leave an appliance unattended when it is plugged in.
- Extra care should be paid when appliance is used by, on, or near children or individuals with certain disabilities.
- Do not use any attachments which are not provided by the manufacturer. Follow all instructions mentioned in this manual when using.
- Never use the appliance when cord or plug are damaged.
- Also, if the appliance does not work properly or is dropped into water/fluid, do not use it and return the appliance to a service center for examination and repair.
- Keep the power cord away from heated surfaces. Do not wrap the cord around the appliance.
- Do not use outdoors and never use the appliance together with any aerosol (spray) products.
- Never use this appliance while oxygen is administered.
- Never use while sleeping.
- Do not use an extension cord with this appliance.
- Do not put hair care product or water directly on the plates.

SAVE THESE INSTRUCTIONS

LIFETIME WARRANTY

TOL, Inc. and Buzz Beauty Ltd. provide a limited lifetime replacement warranty on this appliance, covering any breakage, failure to heat, or other malfunction due to design or manufacturing defect, for the life of the product. This warranty does not apply to problems which are the result of misuse, or normal wear and tear. To invoke the warranty, send the appliance with all its parts to the address below. Include your name, address, telephone number, email address, and a brief explanation of the problem. You must also include a copy of your sales receipt, and payment in the amount of US\$19.95, or UK£19.95 to cover the cost of shipping and handling of your replacement product. No refunds will be issued. Canadian customers: money orders are accepted only from a U.S. bank. The manufacturer's two year warranty IS NOT applicable to any purchases made from any unauthorized dealers or unauthorized resellers of José Eber hair appliances and will not be honored. You may confirm that a reseller is authorized to sell José Eber hair appliances by contacting customer service directly at the respective address below.
