

COASTAL

MODULAR POOL RANGE

- ✓ ***SIMPLE DESIGN***
- ✓ ***EASY INSTALLATION***
- ✓ ***NO CRANES REQUIRED***

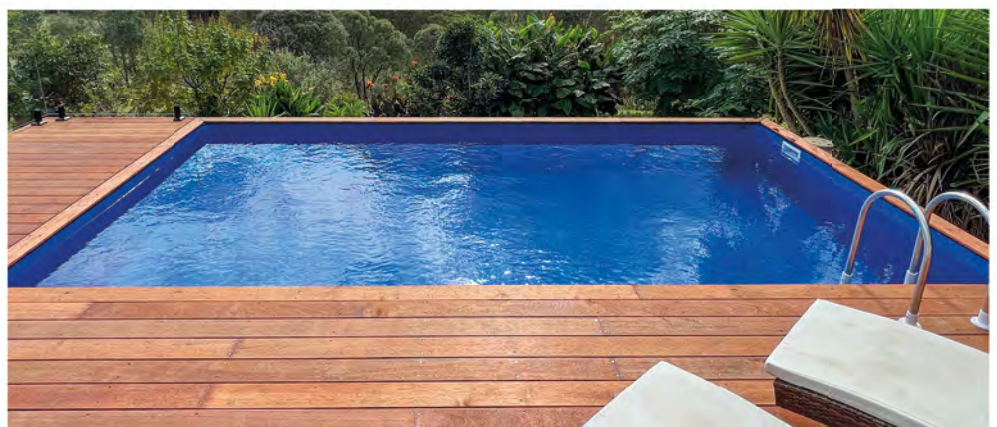

Effortless style. Lifetime of fun! Relax in your personal backyard oasis.

The new Driclad Coastal Modular Pool is a premanufactured DIY kit using state of the art technology. Offering exceptional quality, designed to be easily installed and simple to maintain, it is a TRUE RECTANGULAR pool.

Consisting of simple to assemble rectangular steel panels, supported by foundation reinforcement and steel buttress bracing. The structure is encompassed by an external concrete footer for increased support. No cranes required!

Choosing a square-end pool is a great way to maximise the available space in your customers backyard. The square shape provides over 10% more swimming space when compared to the same volume oval or round pool, and fits comfortably into the smaller backyard spaces of modern homes.

Driclad's new Coastal range is what Australia families have been looking for!

Pool package includes:

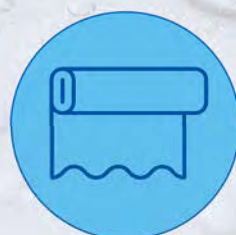

Salt Water Chlorinator

8 Star Energy Efficient Pool Pump

Sand Filter

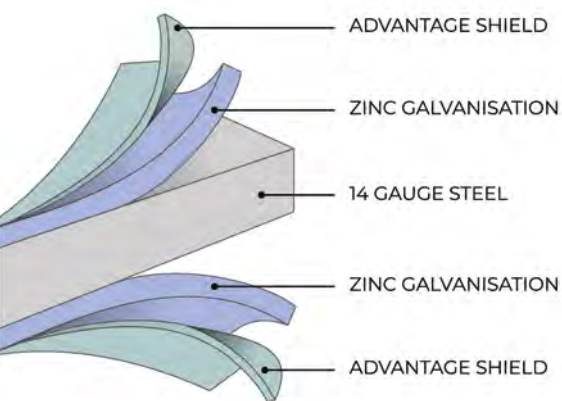

Premium Abgall Liner

In-Deck Ladder

Innovative wall and bracing system exclusively featuring the advantage shield

This uniquely designed and engineered wall and bracing system has been created to maximize the strength of steel and the technology of the 21st Century. New advancements in design and engineering have made Coastal pool steel components even better than anyone could imagine, giving an unparalleled product that you will enjoy for many years to come.

WHAT IS IT?

An exclusive clear coat that contains thermosetting properties that, when applied on top of the Coastal Pools highly galvanized steel components, is designed to enhance corrosion resistance extending the longevity of our building materials.

Planning and considerations for your pool install

Construction is required, be sure to have all appropriate building permits and professional services obtained before starting build.

PLAN AND PREPARE LOCATION

CONSTRUCT WALLS AND BRACING

SET WALLS AND BRACING IN PLACE

INSTALL PLUMBING

INSTALL LINER AND FILL WITH WATER

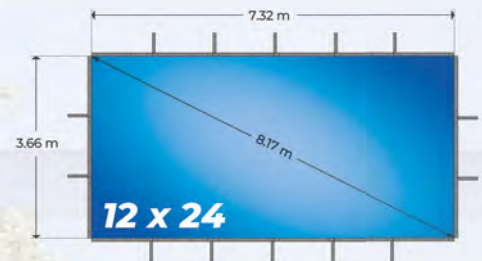

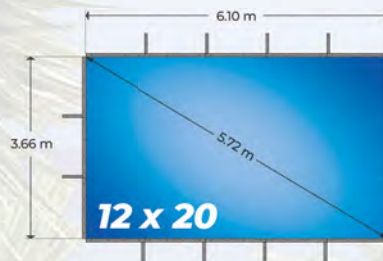

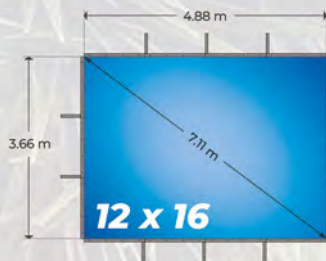

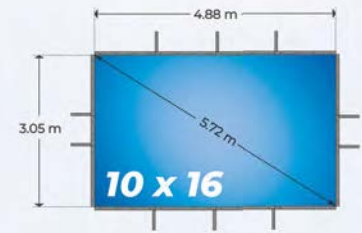

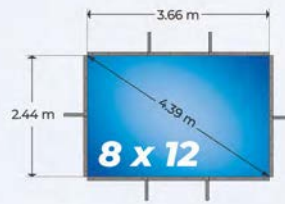

FINISHING OFF AND LANDSCAPING
