

# TASMANIA POOL PERMIT INFORMATION.

The Building Code of Australia (BCA) and Australian Standards define a swimming pool as follows:

Any excavation or structure containing water to a depth greater than 300mm that is used, or designed, manufactured or adapted to be primarily used for swimming, wading, paddling or the like, including a bathing or wading pool, or spa pool.

If you are planning to build a swimming pool or spa, it's vital you understand health and safety requirements around them.

## **Regulations:**

The Building Code of Australia (BCA) and Australian Standards define a swimming pool as follows:

Any excavation or structure containing water to a depth greater than 300mm that is used, or designed, manufactured or adapted to be primarily used for swimming, wading, paddling or the like, including a bathing or wading pool, or spa pool.

If you are planning to build a swimming pool or spa, it's vital you understand health and safety requirements around them.
