| Illegal Anejo    | 21 |

## ABOUT US

Established in 1883, Earp is one of Australia's oldest family owned and operated businesses. Earp Distilling Co. was founded by brothers Michael and Richard Earp whose shared passion for the creative and experimental gave birth to a distillery reverent of history but with an eye toward the future. The goal has been to create a spirit brand and distillery that is synonymous with quality, sustainability and adventure for our community of the spirit curious.

Earp Distilling Co. utilises ultra modern stainless steel stills allowing for the production of any kind of spirit imaginable with speed, accuracy, control and consistency. Additionally, these stills operate with up to 90% more energy efficiency than traditional copper stills. We prioritise local ingredients and distil all our spirits in house.

We respectfully acknowledge the traditional custodians of the land, The Worimi Nation, on which we live, work, and stand. We pay respects to the elders, past, present and emerging.

## ARTWORK

The Earp family has long valued those with a creative spirit. In fact, illustrations from Roslyn Earp (mother to distillery directors Michael and Richard) can be seen throughout the distillery, including on its walls and front facade. Hanging in the front bar gallery is a rotating cast of local artists for you to admire while you sip on your favourite spirit. These artists retain 100% of any sales made on their work and we encourage you to read more about them and support our local creative community.
