- Easy installation system
- Made in Italy

SPECS

- Motor capacity: 600 CFM
- Controls: Electronic push buttons soft touch
- Lights: 2 X LED
- ETL approved

ACCESSORIES

- Charcoal filters included

PRODUCT PLUS

The semi round Tega cooker hood complements the curved lines of your kitchen. With simple functions this hood not only looks the part, it's practical and functional for the modern chef.

There are 4 speed controls available to clear cooking vapours quickly and efficiently. LED lights provide brilliant illumination over your cooking surface, and give your kitchen ambience. Maintenance is easy with design grease filters, as they are washable for no-fuss cleaning.

Light indicator for grease filter maintenance

The cooker hood automatically informs you when the metal grease filter designed for trapping grease in the air requires cleaning. It is of utmost importance to clean these filters to ensure cooker hood components are protected and to pre-vent bad odours caused by a build-up of grease.

Light indicator for charcoal filter substitution

The cooker hood automatically informs you when the active carbon filter requires replacing. This filter is designed to absorb odours produced when cooking. It is of utmost importance to replace these filters regularly as they lose their efficiency and odour trapping performance.

Time delay shut-off

This function allows you to programme delayed cooker hood shutdown which, in the shortest time possible, provides the right level of air purity in your kitchen.
