Stilosa 15 Bar Pump Manual Espresso Machine

Now you can incorporate delicious espresso drinks into your daily routine with the Stilosa by De'Longhi. Created for those embarking on their espresso journey, this elegantly designed machine allows you to easily craft authentic espressos, lattes, and cappuccinos in the comfort of your own home. The 15-bar pump creates the optimal pressure to extract a single or double espresso according to espresso brewing standards. An ergonomically designed portafilter has two filters, for single or double espresso. A separate tamper provides additional control of even and consistent pressure for a better extraction. The two-level cup holder accommodates taller cups. The heart of Stilosa - the durable Stainless steel boiler - is engineered to last longer and work for years with consistent performance, unlike the competition. The manual milk frother mixes steam and milk to create a rich, creamy froth for evenly textured lattes and cappuccinos just the way you like them. Stilosa's sleek, refined design and stainless steel elements make this the perfect addition to your kitchen countertop without taking up too much space. On top of that, it's simple to clean and maintain to ensure your espresso machine lasts longer. Your at-home espresso journey starts now with Stilosa.
