

DeLonghi / D677UX

Deep fryer, CoolTouch

The De'Longhi 2.2-lb. cool-touch deep fryer large food capacity allows you to accommodate almost any type of food. This ingenious system makes draining and recycling cooking oil safe and easy. Adjustable thermostat with indicator light allows you to set frying temperature from 300 to 370 degrees, giving the flexibility to fry foods just the way you like them.

Viewing window in lid allows you to monitor the cooking process safely. Other features include exterior lift handle, detachable cord with patented condensation shield to prevent dripping onto the cord connection, safety features, and non-stick interior.

- Cool-touch deep fryer with large 2.2-lb. food capacity
- Stay-cool exterior walls keep fryer safe to the touch
- Patented cleaning system lets you drain the oil through a tube
- Detachable cord with patented condensation shield
- Adjustable thermostat with indicator light
- Replaceable anti-odor and anti-vapor filters
- Viewing window
- Exterior lift handle
- Non-stick interior
- Non-slip feet keep fryer in place

DeLonghi / D677UX

Deep fryer, CoolTouch

GENERAL INFORMATION
