Livenza Slow Cooker With Stovetop Browning

Take the guesswork out of cooking with De'Longhi Livenza Slow Cooker, the programmable slow cooker with a stovetop-safe pot designed for convenient one-pot cooking and cleanup. Sear, braise and simmer on your stovetop to lock in complex flavors, then drop the pot back in the cooker for a slow simmer with ultimate precision. With the Livenza programmable slow cooker, a perfectly cooked dish with deep, rich flavor will be ready and waiting for you to enjoy, no matter how busy your day was. Unlike traditional slow cookers, Livenza's versatile stovetop-safe design lets you sear your favorite meat and poultry to perfection. Simply remove the inner pot, use your stovetop for searing, then return it to the slow cooker for a long, slow simmer. Delicious family meals, savory side dishes and decadent desserts are crafted with absolute precision. TrueTemp technology guarantees the best results with carefully regulated temperature settings. Just choose one of our exclusive slow cooker recipes from our recipe app and set the 24-hour programmable timer on the easy-to-read LCD display. When you return home, you'll be treated to a dish with heightened flavor and juiciness - every cut of beef so tender, it falls off the bone. Livenza's intuitive smart-heat design automatically switches from Cooking mode to Keep Warm mode for up to 12 hours so your dinner never overcooks and is ready to serve when you are. Since you can cook an entire meal in a single pot, cleanup is fast and easy. Don't give dinner a second thought once you leave home. With Livenza, you'll always have time to sit down with your family and enjoy a delicious meal at the end of a busy day.

- 6-quart nonstick, stovetop-safe cooking pot (dishwasher safe)
- Sear or braise right on your stovetop, then place pot directly in slow cooker
- 3 cooking modes in Slow Cook (low, medium, high)
- Easy-to-use electronic controls with easy-to-read LCD display
- 24-hour programmable timer
- Auto Keep Warm mode, to keep your favorite dishes at the perfect temperature for up to 12 hours
