La Specialista Prestigio Sensor Grinding Technology, Milk Frothing

Have you wanted to make the best coffee at home like a barista? The La Specialista is for you. Beautifully designed in stainless steel, this traditional coffee machine is for espresso lovers who want effortlessly hand-craft their coffee. This manual coffee machine features a 2L water tank and a built-in tamper that keeps the kitchen nicely clean. The grinder comes with 6 settings from fine to coarse, as well as built-in sensors that will automatically adjust the grinding time for the perfect dose. The hot-water rinse button lets you preheat the filter-holder and glass cup, while also cleaning them. Best of all, this coffee machine uses 2 separate heating systems for brewing espresso and steaming milk. There is no waiting time between coffee and milk preparations. The La Specialista comes preset with 3 recipes - Espresso, Americano and Coffee. Or create your own with the 'My' button. Start making your beverage by preheating the portafilter (and its pressurised basket) for better results. Attach the portafilter under the grinder then grind the beans to your preferred size. Tamp down with the built-in tamper and be surprised. No fuss!
