La Specialista Arte Evo With Cold Brew Machine

Explore the art of espresso made right, effortlessly, with the refined features of La Specialista Arte Evo from De'Longhi. Created for the hands-on home barista, this compact and stylishly designed espresso machine empowers you to craft custom espresso drinks with ease and precision. From start to finish, unlock all the aromatic flavors of the beans for results that perfectly match your palette. Full control is at your fingertips with exclusive features, including a conical burr grinder with eight precise settings developed to expertly grind all bean varieties in a single or double dose, and now cold brew. De'Longhi's proprietary Cold Extraction Technology now allows you to enjoy cold brew in under five minutes. This innovative technology, developed in collaboration with the Specialty Coffee Association, utilizes precisely measured water flow and pressure rates, along with specific extraction temperatures, to create a delicious cold brew coffee in less than five minutes. The La Specialista Arte Evo comes equipped with a barista kit, including a tamper, dosing funnel, and more, to prepare your fresh grounds in either a single or double dose with a simple, mess-free experience. The Active Temperature Control allows you to select one of three temperature settings to match water infusion temperature to beans for optimal extraction. Finally, the powerful, commercial-style wand heats up quickly and delivers the right steam pressure needed to create consistently smooth micro-foam for latte art. Save time with four beverage presets—espresso, Americano, cold brew, and hot water. With La Specialista Arte Evo, an authentic, hand-crafted coffee experience is within your reach. Indulge in the creativity of coffee-making as you get the best out of every bean and enjoy experimenting with latte art as a home barista.

- Conical burr grinder delivers a precise, consistent dose of freshly ground coffee for single or double espresso and cold brew drinks
- 8 grind settings to explore your favorite bean varieties and prepare them for optimal extraction
- Commercial-style steam wand heats up quickly and delivers the right steam pressure needed to create consistently smooth micro-foam, optimal for making latte art right at home
- Enjoy cold brew coffee in less than 5 minutes with De'Longhi's proprietary Cold Extraction Technology developed in collaboration with the Specialty Coffee Association
- Innovative Cold Extraction technology utilizes precisely measured water flow and pressure rates, along with specific extraction temperatures
- Professional barista toolkit makes your experience mess-free and easier than ever with the dosing and tamping guide, plus tamping mat, and more
