BRAUN

MQ9X Features

Active PowerDrive Technology

Up to 60% faster performance*
Up to 6x finer blending results*

Faster, Finer, Results

World's first ACTIVEBlade designed to handle the toughest jobs, with 250% more active cutting surface and 2x finer blending.

iMode Technology

Different modes allow even better SmartSpeed control for precise results and ease of use.

Advanced Smart Speed

Control the results you want, adjust the power intuitively.

Extra Blade for Extra Power

The patented POWERBell Plus features an extra milling blade to provide more slices per rotation, blending large pieces and hard ingredients more easily.

Easy Click Plus System

Switch attachments with a click, you can quickly change attachments as you prep. It gives you the versatility to blend, chop, whisk, mash, and puree ingredients effortlessly.**
