Press release from Electrocompaniet, March 2021:

Eight (!) Electrocompaniet products receive Roon Ready Certification

Thursday, March 18th, 2021. Electrocompaniet is proud to announce that the ECM 1, ECI 6DX including MKII, TANA SL2/SL1, Rena S1 and SA1 have all received Roon Ready certification from Roon Labs.

Roon is a rich and engaging way to browse, organize, and listen to music. Artist photos, credits, bios, reviews, lyrics, tour dates, and composers are located automatically, then interconnected by links to build a surfable digital magazine. Roon is also a multi-room, multi-user networked audio platform, it offers features such as bit-perfect playback, DSD and PCM upsampling, multichannel support, and Signal Path display.

What does it mean to be Roon Ready?

Being Roon Ready means that all Electrocompaniet product with EC Software Engine transparently discover and connect to Roon without any configuration, and bit-perfect audio is delivered from Roon to your network player.

Together, Roon and Electrocompaniet deliver the power, flexibility, and performance of networked audio, with the easiest setup and highest reliability available.
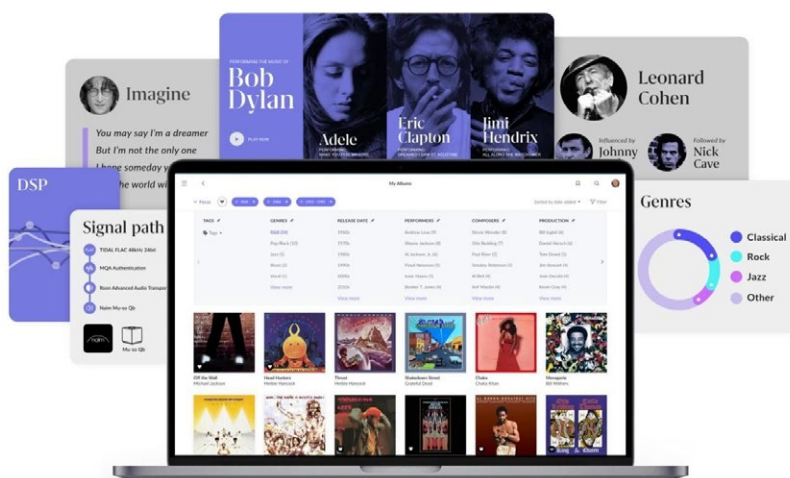

About Electrocompaniet

Our 47 years of legendary Hi-Fi products from Norway gives us a unique perspective. Electrocompaniet was established in 1973, and we are the leading Norwegian manufacturer of high quality Hi-Fi equipment. Our products are loved by professionals, audiophiles, press and musicians alike, and once experienced, the sound of Electrocompaniet says it all. Our product range consists of CD-players, DACs, amplifiers and speakers available on both the High-End Classic line and Lifestyle EC Living line. Electrocompaniet products are made in Norway and sold by authorized distributors and dealers in more than 50 countries.

About Roon Labs

Roon transforms the experience of browsing music. Artist photos, credits, bios, reviews, lyrics, tour dates, and composers are located automatically, then interconnected by links to build a surfable, searchable digital magazine about your entire music collection.

Roon also links all of your personal files with the millions of tracks available on TIDAL and Qobuz, so you can start with the music you know, then explore and discover new music from the world beyond your collection. Roon runs on most Mac, Windows, and Linux PCs as a server, with an Android or iOS smartphone/tablet used as a control point.
