Time-Out

Time out est doué de dossiers amovibles permettant une utilisation souple des assises qui invitent à partager l'espace. Le canapé assume des configurations extrêmement intéressantes grâce à la possibilité de combiner des couleurs différentes ainsi obtenant des contrastes harmonieux entre les couleurs des assises et ceux des coussins.

Time out has movable back rests allowing for ultra-flexible use on the seats and as partitions. Added interest is created by placing sofa elements in different colours side by side, producing attractive contrasts between the colours of the seats and cushions.
