

The Gigaset AS690 Range

2 YEAR WARRANTY

Clear, ergonomic, safe, intuitive — who knew using the phone could be so simple?

The first thing you notice about the Gigaset AS690 is its large, illuminated, black-and-white graphic display which has been designed to ensure that the telephone is even more easier to use. The ergonomic keyboard with illuminated keys and intuitive call handling also contribute to a simple, convenient user experience. Hidden away inside the handset, the AS690 incorporates the environmentally friendly ECO-DECT technology to minimise wireless radiation for the user.

Simply sounds good - a DECT phone with outstanding audio features

The choice is yours, you can make a call using the handset or in hands-free mode. All calls are delivered with exceptional sound and voice quality through HDSP technology that eliminates any hissing or distortions. Customising the handset is easy with selectable hands-free profiles and adjustable signal strength of the higher or lower frequencies to make the sound perfect for you. Whatever you decide, you can always rely on perfect voice quality!

Stay in touch with a built-in phone book and a long talk time

With an outstanding 12-14 hours of talk time and 180 hours of standby time, you can rest assured that you will always be able to communicate with your contacts. The integrated phone book can hold up to 150 names and numbers (dependent on the model) which can be uploaded from Android and Apple devices through the Gigaset ContactsPush app. In addition, the last 25 calls with the caller's number, name and the time at which they rang are listed chronologically in the call history.
