Product Overview

The CIS Secure DTD-WXRMPLUS is a Video Telepresence Conferencing (VTC) solution designed to deliver the on-hook requirements of TSG-compliant secure collaboration. Based on the Cisco Systems Webex Room Kit Plus, the DTD-WXRMPLUS is a system is designed to work with the Room Kit Plus to add the positive disconnect functionality and visual indicators needed to meet a secure VTC requirement. As a powerful codec, the Room Kit Plus works with the Cisco Quad Camera and sound bar to enable a feature-rich experience. When paired with the DTD-WXRMPLUS, the combined solution adds another layer of security to that same rich experience making it ideal for medium to large sized conference rooms.

As an innovator in secure collaboration, CIS Secure designed the DTD-WXRMPLUS as a TSG-approved solution to bring new or existing deployments of the Cisco Room Kit Plus into compliance. Our portfolio of secure VoIP and Video endpoints enable our government customers to not only secure their communications but also meet compliance requirements. In September 2021, the National Telecommunications Security Working Group (NTSWG) issued their Annex K amendment to the CNSSI 5000 guidance requiring that all VTC appliances must meet TSG security requirements. The DTD-WXRMPLUS ensures that your VTC system does too.

Key Features

Positive Disconnect Control

Quad Cam Connection

Visual Indicator

Optional Multiple Microphones

Dual Monitor Support

TSG Solution for the Cisco Room Kit Plus

DTD-WXRMPLUS Product Specifications

Part # / TSG #:	DTD-WXRMPLUS-01 (Class B) / TSG-B-08-2023 - Includes Cisco Room Kit DTD-WXRMPLUS-02 (Class A) / TSG-A-05-2023 - Includes Cisco Room Kit DTD-PDCODEC-01 (Class B) / TSG-NC-01-2023 DTD-PDCODEC-02 (Class A) / TSG-NC-02-2023
Video (Camera):	(1) HDMI in from Cam / (2) HDMI in for Content / (3) HDMI out to RK Plus
Video (Displays):	(2) HDMI In from Room Kit Plus / (2) HDMI Out to displays
