

GRP2600 Series Carrier-Grade IP Phones

Custom Brand Your IP Phones with Replaceable LCD Covers

Replaceable Glass Cover for Easy Private Label Easy Swappable Faceplates

One of the best features of the GRP2600 series is they allow you to change and customize the LCD faceplate, with a low minimum order quantity and aggressive price points. Customized faceplates can be installed in the factory or shipped to the customer for easy installation.

Minimum Order Requirement

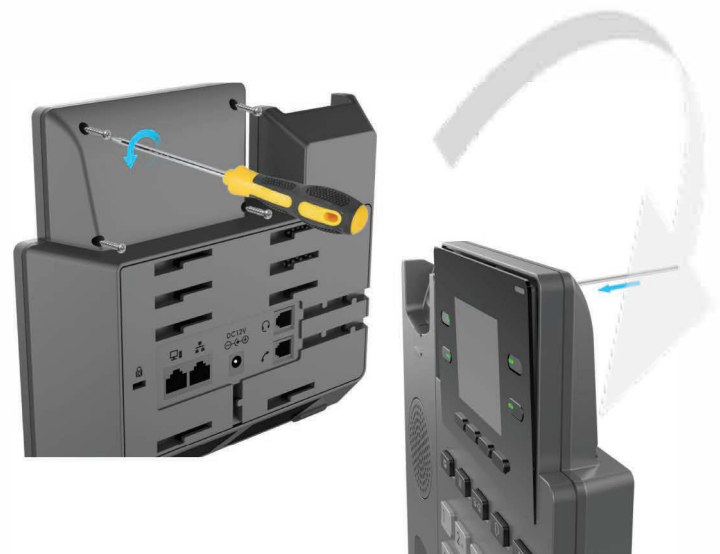

Minimum order quantity is 250 units per GRP series model with no reoccurring customizable fees.

Faceplate Options

- Changing the logo and location of the logo on the faceplate
- Removing the logo (no logo)
- Changing the color of the faceplate

How to Order Custom Faceplates

- 1** Grandstream will send you a CAD (Computer-Aided Design) file. This is where you can submit your requested faceplate design.
- 2** After Grandstream confirms that your design is viable for production, a sample faceplate and/or visual proof will be provided for customer approval.
- 3** Once approved, the production time for the faceplate order will be about 4-5 weeks. For orders where the faceplates will be pre-installed in the factory, an additional 2-3 weeks must be considered.

**for the GRP2614, the only option is to have the customized faceplate pre-installed in our factory*
