

Secure Collaboration in a Portable Kit. Easy as it gets.

Tired of lugging around separate cases for voice, video and compute endpoints? You're not alone. Our mobile collaboration kit solves the problem.

Benefits

Full video codec with a vivid touchscreen display, HD camera and built-in speakers and microphone

Fully integrated TSG approved Cisco 8841 VoIP phone with handset

Leverage your own hardware-based encryption and enable secure collaboration wherever, whenever.

Product Overview

The Secure Voice, Video and Compute (DTD-SVV8841-6) Kit from CIS Secure is a portable, multi-function platform capable of delivering seamless collaboration to users in the field. The DTD-SVV8841-6 has a TSG-approved Cisco 8841 phone built-in to the case. In addition, the kit has a fully integrated Avaya CU360 codec, which when coupled with the kit's HD camera, speakers and microphone provides the user the ability to engage a secure video teleconference (VTC). CIS Secure extends the flexibility and capabilities by providing an integrated Intel NUC PC inside the case. Users can connect USB peripherals to ports in the kit to leverage full compute services and applications.

Regardless of the application or collaboration service in question, the DTD-SVV8841-6 provides the ability to ensure a secure connection when used in the field. The kit gives government users the ability to create a (Red) network with the Avaya CU360 codec, Cisco 8841, Intel NUC as well as capacity for one additional network connected device in a secure enclave on one side while still having a separate (Black) router for Internet or other WAN connectivity on the other. Giving users the unique ability to place a secure phone call, engage in a VTC session or securely use a full compute platform to run applications in a convenient package is a clear advantage when away from the office.

Key Features

15.6" Color Touchscreen

Ruggedized Case

Built-in TSG Phone

Full Video Codec

Type 1 Encryption Capable

Product Specifications

Part #:	DTD-SVW8841-6
Intel NUC	
Processor	Intel® Core™ i5-7260U Processor (4M Cache, up to 3.40 GHz)
Storage	500GB SSD (NVMe option available)
Memory	2x 8GB DDR4-2133
Video Out	HDMI 2.0a
USB ports	(3) USB Type-A
Network	(1) RJ-45 10/100/1000BaseT
Black Router	
Console	RJ45
Wired Network Ports	(1) RJ-45 10/100/1000 LAN port / (1) RJ-45 10/100/1000 WAN port
Red Switch	(1) RJ-45 10/100/1000 LAN port
Headset Port / Handset Port	(1) RJ-11/ (1) RJ-11
External Dimensions	(L x W x H): 15 x 18 x 7" ; 50.3 x 40.6 x 19.3 cm
Weight	25.2 lbs
AC Power:	100-240 VAC:50-60Hz - Power Cord Provided / DC Power
Operating Temp:	0°C to 35°C (32°F to 95°F) ambient temperature
Warranty	Standard 1 year parts and labor Optional 3 years parts and labor
