20 Year Premium Limited Warranty
-Year 1: Full Coverage of Parts and Labor
-Years 2 and 3: Full Coverage of Parts Only
-Years 4 through 20: Prorated Coverage of Parts Only (Non-Electrical)

Sleep Enhancement™ Technology

The benefits of the Sleep Enhancement technology are numerous. The pulsation of a single vibe motor placed in the mid-back area provides an even, Total Body Vibration. Studies show medical benefits of Total Body Vibration could include increased circulation, muscle strength, and flexibility; better range of motion; and faster muscle recovery after physical activity. Total Body Vibration itself may also ease the body to sleep by relaxing the body's muscles with the repetitive pulsations. In addition, it creates a white noise effect, canceling out other surrounding noises and preventing sudden noises from waking you, allowing you to fall and stay asleep easier.
