

Cedar Barrel Sauna Assembly Instructions

To install the wood burning heater, lift the heater into the hole in the back of the sauna.

*** Woodstove is very heavy and 2 people are recommended for lifting.**

Secure the wood stove with provided 1 1/2" lag screws.

Repeat for all 16 holes.

*** Do not overtighten as this will strip the screws.**

Attach the chimney elbow to the wood burning stove by pushing the provided bolts into place and hand tightening the nuts on the other side.

Repeat for all 4 corners.

Using a wrench to hold the nut on the inside, tighten the bolts completely with an impact drill or a wrench.

Wood Burning Heater Installation

Dundalk LeisureCraft Cedar Barrel Sauna Assembly Instructions

Insert the flanged end of the chimney head onto the elbow firmly.

** Some finessing may be required.*

Ensure that the flanged end of the chimney is securely in place

Rinse the rocks with water before placing in the heater.

****Operate the heater for an hour with the sauna door fully open to burn off any residual coating from the manufacturing process before using.***
