

NATURECAN

FITNESS

ABOUT US

Naturecan Fitness is a UK-based supplement company.

Our top priority is to provide fitness products, including high quality proteins and supplements, manufactured using sustainable production methods. We focus not only on product quality, but also on manufacturing products in a sustainable and ethical way.

Currently sold in 20 countries around the world, we are focusing on delivering the highest quality and most innovative products globally.

Our mission is to support your active lifestyle by providing the highest quality products that are as close to nature as possible.

NATURECAN

Naturecan Fitness was founded in May 2019 by Andy Duckworth, the former CEO of Myprotein, and Paul Finnegan.

We are a global wellness brand focused on offering safe, effective sport nutrition products as well as additional health supplements such as vitamins and minerals. The company's primary goal is to create products that help people to lead happier and healthier lives.

ANDY DUCKWORTH

FOUNDER AND CEO

PAUL FINNEGAN

FOUNDER AND PRODUCT DIRECTOR

At Naturecan Fitness, it's our mission to reduce our carbon footprint and give back to nature wherever possible.

In 2022, Naturecan became an officially certified carbon neutral company.

We give back to nature wherever possible and plant a tree for every order placed.

We have worked to make 82% of our products vegan, reducing our carbon footprint by lowering the demand for animal products.

We donate £500 a month to the World Land Trust

CLEAR WHEY PROTEIN ISOLATE

Each fruity serving of Clear Whey Protein is packed with over 23g protein, helping you to grow and maintain important muscle, whether you're looking to tone, grow muscle or just stay healthy. Our formula is low in sugar, making it the perfect choice for keeping your fitness goals and eating schedule on track.

- Over 23g protein per serving
- Protein supports the growth and maintenance of muscle
- Low in sugar
- Suitable for vegetarians
- Third-party lab tested
- Available in 3 flavours

[Click to find out more](#)

GRASS FED WHEY PROTEIN

Using cows grazing on 96% grass, this unique blend delivers higher biological value compared to standard whey protein, as well as better preserving naturally occurring protein fractions for improved levels of immune-boosting compounds.

Hormone-free, low in sugar and created with 100% natural flavourings, you can now build and maintain muscle cleaner than ever, with nutrition as close to nature as we can – all in environmentally friendly biodegradable packaging.

- 23g grass-fed protein per serving
- Complete amino acid profile
- 100% natural flavours – chocolate & vanilla
- Hormone-free
- Third-party lab tested

[Click to find out more](#)

VEGAN PROTEIN

Delivering a huge 24g of plant protein with less than 1g of sugar and fat, our Vegan Protein Blend is the natural way to boost your nutrition, any time of the day.

Created with Pea Protein Isolate, our all-natural blend boasts 80% protein content and a boost of essential vitamins and amino acids, helping to power your recovery and decrease muscle breakdown after a workout.

- 24g plant-based protein per serving
- Low in sugar and fat
- 100% vegan - all-natural flavourings
- Rich in iron, zinc and selenium
- Third-party lab tested

MATCHA PROTEIN COOKIE

Enjoy the rich, aromatic flavour of your favourite matcha tea on-the-go with our deliciously sweet Matcha Cookie.

Baked with golden syrup, white choc chips and packed with 19g of protein, they're perfect for an afternoon pick-me-up or post-gym snack - and a indulgent way to get essential protein into your diet.

- Delicious on-the-go-snack
- 19g protein
- Source of fibre
- GMO-free and no artificial sweeteners
- Suitable for vegetarians

Fitness Supplements

- HMB
- EAA
- Creatine Monohydrate
- ZMA[®]
- Flavour Powder
- KSM-66[®] Ashwagandha
- Sensoril[®] Ashwagandha
- Unbranded Ashwagandha

HMB

HMB (Beta-Hydroxy Beta-Methylbutyrate) is a substance naturally formed within the body when breaking down leucine. This branched-chain amino acid is one of the essential building blocks of protein, which promotes lean muscle growth and maintenance.

A popular supplement in the weightlifting community, HMB is a great choice when upping the intensity of your workouts. With 1.5g per serving, these convenient capsules are a great addition to your fitness regime.

- Metabolite of the BCAA leucine
- Protein supports growth and maintenance of muscle mass
- 1.5g HMB per serving
- Convenient tablets

[Click to find out more](#)

ESSENTIAL AMINO ACIDS (EAA)

The building blocks of protein, low in sugar and completely fat-free, our EAAs are a great way to stay refreshed and deliver the protein you need to grow and maintain muscle - all while keeping your training on track.

Supplementing essential amino acids is important because they can't be produced by your body, and can only be gained from food. Get the levels you need to support training in a convenient, cost-effective and delicious way with our zingy lemon iced tea flavour EAAs.

- Includes 8 essential amino acids
- Low in sugar and fat-free
- Suitable for vegans
- Protein contributes to growth and maintenance of muscle mass

[Click to find out more](#)

CREATINE MONOHYDRATE

A popular supplement among fitness enthusiasts, creatine is a natural compound found in muscle cells that helps to increase the body's performance, particularly during successive bursts of high-intensity exercise. Formed of three amino acids, it's the subject of over 1,000 research studies and one of the safest fitness supplements on the market.

Creatine increases physical performance in successive bursts of short-term, high intensity exercise. Beneficial effect is obtained with a daily intake of 3g of creatine.

- Creatine increases physical performance
- Ideal for all sports and exercise
- Easy to use everyday supplement
- Suitable for vegans

[Click to find out more](#)

ZMA®

Get a triple hit of zinc, magnesium and vitamin B6, all of which play an important role in your everyday wellbeing, with our patented ZMA® blend.

Zinc supports testosterone levels and contributes to normal fertility, while magnesium and vitamin B6 fight everyday tiredness and fatigue, and vitamin B6 and zinc maintain the immune system - making our ZMA® a convenient way to support your overall health.

- Powerful vitamin & mineral blend
- Zinc helps maintain testosterone & contributes to normal fertility levels
- Magnesium reduces fatigue, supports muscle function & maintains electrolyte balance
- Vitamin B6 supports the immune system and metabolism
- Convenient everyday capsules
- Vegan-friendly

Health Supplements

- Rhodiola Rosea
- Vitamin D3 and K2
- Vitamin D3
- Glucosamine and Chondroitin
- Active Curcumin
- Cod Liver Oil
- 5-HTP

Rhodiola rosea extract with folic acid

What is rhodiola rosea? Also known as “golden root” or “arctic root”, rhodiola rosea is a flowering herb that grows naturally in the mountainous regions of the Northern Hemisphere. It has been used in traditional Asian and Scandinavian medicine for centuries, and in recent decades has become a popular health supplement in the West due to its potential to support general well-being.

We've combined rhodiola rosea root extract with folic acid to help you feel less fatigued and stay mentally sharp - all in a vegan-friendly, easy-to-take capsule form.

- Ideal for active lifestyle enthusiasts
- Folic Acid reduces tiredness & fatigue
- 60 easy-to-take capsules
- 100% vegan
- Third-party lab tested

[Click to find out more](#)

VITAMIN D3 & K2

Vitamin D3 is very difficult to absorb through food and is mainly produced by the body when exposed to UV radiation from the sun. However, especially in Europe and during the winter months, many people do not get enough sunlight to reach optimal levels.

Vitamin K2 is important for the activation of osteocalcin and MGP (matrix GLA protein), which transport calcium to the bones and store it where it belongs. Vitamin K2 works together with vitamin D, which promotes the formation of osteocalcin and MGP at the same time calcification of blood vessels and other tissues is prevented.

- Over 100% daily NRV
- Perfect for bone health
- Maintains muscle function
- Boosts your immune system
- K2Vital® - Micro-encapsulated all-trans Vitamin K2-MK7

[Click to find out more](#)

VITAMIN D3

With 125µg of vitamin D3 per softgel, our Vitamin D3 supplement supports your immune system to keep you fighting fit, as well as helping bones and muscles stay in great condition – a must for everyday health and recovery after intense exercise.

Vitamin D is often referred to as the “sunshine vitamin”, as it’s best sourced from the sun’s rays. However, it can also be found in fatty fish and seafood, mushrooms, egg yolks, and supplements like our Vitamin D3.

Our convenient softgels give you your must-needed daily vitamin D3 requirements without the fuss, so supplementing fits your schedule.

[Click to find out more](#)

Glucosamine, Chondroitin & Vit C Capsules

Ideal for people leading active lifestyles, our Glucosamine and Chondroitin Capsules offer a simple way to support mobility and joint health, particularly during exercise.

Often taken together as a supplement, glucosamine and chondroitin are two structural components of cartilage, the connective tissue which cushions joints and absorbs impact – making our capsules a great choice for anyone taking part in rigorous exercise.

We've also added vitamin C, which has been shown to support healthy bones and cartilage while contributing to the normal functioning of the immune system, and metabolism – all of which will support you in your training.

[Click to find out more](#)

Active Curcumin

Powered by NovaSOL[®], our convenient Active Curcumin capsules combine 500mg curcumin with a daily dose of vitamin D3, helping to support your immune system and maintain everyday muscle function.

NovaSOL[®] curcumin has been shown to have higher bioavailability than powdered curcumin, making these capsules a convenient and efficient way to get the curcumin you need.

As part of your daily supplement routine, this vegetarian-friendly option is designed to keep you feeling fit, using NovaSOL[®] active curcumin formulation.

[Click to find out more](#)

Cod liver oil

Keep your health in check while you're busy with our convenient Cod Liver Oil Capsules – rich in essential omega-3 fatty acids and vitamins A and D.

Providing your body with high-quality EPA and DHA, these super softgels are perfect for those who exercise regularly or want to stay fit and healthy.

With our Cod Liver Oil capsules, get 100% of your daily NRV of vitamin A and D per serving. Both vitamins support the immune system; vitamin A supports normal skin and eyesight, while vitamin D maintains normal muscles, bones and teeth – so you can feel your best, all day long.

[Click to find out more](#)

5-HTP

5-HTP is a compound made from a naturally occurring amino acid, tryptophan. A precursor to serotonin, it's involved in many bodily functions including mood regulation and a normal healthy sleep.

Supplementing it is the only way to quickly and easily get 5-HTP to your diet – giving your body the best platform to function properly, and help improve your night-time regime. Our capsules are also vegetarian friendly, too.

KSM-66® ASHWAGANDHA

Native to India, the Middle East and parts of Africa, Ashwagandha is an ayurvedic herb that has been used for centuries as a natural remedy. KSM-66® Ashwagandha delivers its potential benefits in an easy-to-take capsule form with a neutral flavour – making it a useful and convenient dietary supplement.

KSM-66® also contains a high concentration of Ashwagandha root extracts, offering a balanced and complex blend of natural active ingredients with high bioavailability. It is the product of over 14 years of research and development, having undergone the most extensive safety assessments in the industry – which means you can enjoy the best possible Ashwagandha benefits worry-free.

- Award-winning KSM-66® capsules
- High root extract concentration & high bioavailability
- Suitable for vegetarians

[Click to find out more](#)

Sensoril® ASHWAGANDHA

Infused with all-natural ashwagandha leaf and root extract, Sensoril® Ashwagandha capsules are ideal for active people with busy schedules.

Sensoril® Ashwagandha is a unique blend of both the leaves and roots of this plant, delivering enhanced levels of bioactive compounds key for supporting health, including withanolide glycosides, oligosaccharides & withaferin A.

Sourced from traditional farms in India, this plant-based ashwagandha supplement has been used in several clinical trials, and offers a safe, convenient and natural way to look after your wellbeing .

[Click to find out more](#)

ASHWAGANDHA

Infused with ashwagandha root extract, Ashwagandha capsules are ideal for active people with busy schedules.

So what is ashwagandha? Native to India, the Middle East and parts of Africa, ashwagandha (*Withania somnifera*) is an ayurvedic herb that has been used for centuries as a natural remedy to aid inner tranquillity.

Delivering 500mg ashwagandha extract per capsule, this vegetarian-friendly ashwagandha supplement offers a safe and convenient way to look after your wellbeing (1).
