

friendly loom™

by Harrisville Designs

2020 RETAIL CATALOG

Fiber Crafts for Kids • Made in the USA

There's something special about teaching children to work with their hands!

We developed the first of our Friendly Loom™ Products in the 1980's in response to a growing demand from educators and parents concerned with introducing 'hands on' creative activities to children and teenagers. Our products are designed to provide fun, challenging, educational experiences while developing concentration, fine and gross motor control and a better understanding of spatial relationships and patterning.

In this fast-paced world where children are being forced to grow up too quickly, we believe that it is essential to help them slow things down and experience their creative abilities by introducing them to the joys of working with their hands. As educators and parents, one of our most important challenges is to encourage the development of self-esteem and self-confidence.

For a child to be able to say, "I made this myself," the pride in achievement is not only felt in that child's mind and heart, it is represented in a tangible form by something beautiful and practical to own or to give as a gift. We hope that you will find Harrisville Designs' Friendly Loom™ Products useful tools for helping children discover the excitement of the creativity that is within them.

John, Patricia & Nick Colony

What makes us different?

Woolen yarn has been spun in the water powered, brick mill town of Harrisville since 1794. This small village is nestled in The Monadnock Highlands of southwestern New Hampshire and is the only industrial community of the early 19th Century that still survives in America in its original form. At Harrisville Designs we are keeping the textile tradition of this region alive, employing hard-working community members and making quality products. All our products are made in the USA, and most of our products are made in New Hampshire – an idea that is a core value of our company.

Harrisville Designs Award-Winning Friendly Loom™ Products are designed and made by weavers, spinners, and woodworkers. We are a small, family owned and operated business, and we believe that quality should not be compromised for even the smallest product. You can encourage lifelong skills with our educational products (suitable for both children and adults) and give your child the best materials to work with so they can be proud of what they create.
