Trailer assembly & disassembly (all functions as they act as a trailer, stroller & jogger)

Step 1: When starting to assemble the trailer, first assemble the handle-bar with the frame. Fix it with the hexagon screws.

Step 2: The folding mechanism is inside the rear pocket. Open the rear pocket first, then pull the rear tube backwards.

Step 3:Lock the buckles on both sides (2 with blue lever for locking and 2 without for reinforcement). The blue lever will be fixed and set automatically into position.

Step 4:

Disengage the parking brake. Press and hold the soft button and insert the wheel axle into the socket. The axle will be locked automatically. Verify the wheel is securely attached. To remover: press the soft button again and pull the wheel out of the axle.

Step 5:

Install the plastic wing sliding it from the front near the end (at both sides).

Insert the tow bar and slide it inwards into position until the front hole aligns with the hole in the wing. Then insert the safety pin through the hole of the wing.

Step 6:

When in using as a stroller: insert the front wheel (7") into the bracket. Warning: always make sure the stroller wheel is properly and fully engaged and locked!

Step 7:

Press the orientation button for a fixed direction. Release it again for all directions swiveling function.

Step 9:

When in using as a bike trailer: press the blue button to remove the front wheel. Stow the front wheel on one of the bumpers or take aside.

Attention:

Press the orientation button to lock the front wheel to avoid swiveling when in rest. Press the blue round button at the bottom side to release it.

Step 11:

Handle-bar with 8 positions to create a convenient height from 78cm to 115cm and meeting most people's operating requirement.

Attention:

When the trailer is being used as a stroller, please always use the wrist strap for security.

Step 14:

When the child is in the trailer, the the 5-point harness should always be used and adjusted carefully. When seating a child in the trailer, always seat the child on the **right** side. The seat is not suitable for children under 9 months.

Step 10:

Step on the pedal to activate the parking brake. Release it again before strolling or riding.

Attention:

Please check if the brake is in good working condition when in use.

Step 12:

Bike: remove the nut and washer from the left end of the axle. Use a wrench to fix the coupler (A) with the rear wheel axle. Then tighten the nut to the bicycle manufacturer's recommended torque.

Step 13:

Slide the connection tube (B) over the coupler (A) and fixed it with the shackle. Then loop the back-up safety strap around the bicycle frame and hook the clip back on to the tow bar.

NOTE! Carefully check whether the safety belt cannot come in-between the moving parts of the bicycle. If required, wind it around the frame several times.

Step 15:

The sunshade is stored in the top pocket. When needed, it can be pulled out from the pocket for direct use.

Step 16:

The transparent cover is made to protect the kids from rain and dust. Usually, the rain cover is rolled up. In case you need it, pull the transparent cover down and fasten the plastic hooks with the loop on the front of the overlooked in the traffic. canopy.

Step 17:

Before using the trailer, insert the safety flag through the fabric sleeve at the left hand side of the body. This is very important, because the trailer can be easy

Jogger set installation

Step 19: Insert the front fork of the jogging wheel into the front hexagon mounting hole and push forward. The fork will be automatically locked. Then tighten the spring pin bolt.

Assemble the spring pin bolt to the trailer as shown in picture above.

(screw the thread into half position)

Step 20:

When folding the trailer, first take away the safety flag. Then fold the handle-bar in the horizontal position and open the rear window cover.

Step 22: Pull the horizontal rear tube forward.

Step 23: Press the top of both sides to fold the trailer.

Instruction of the use of the safety belt.

Engage the parking brake. Open the front cover(s). Loosen all of the belt adjustments.

WARNING!

Always adjust the shoulder harness and crotch strap so that they meet at the child's lower chest. Adjusting harness and buckles near your child's neck could cause serious injury.
