med lipid dermatological formula

med lipid formula physioderme eye cream 15 ml

natural origin index 98%, vegan, gluten-free, moisturising and nourishing formula, microplastic-free

Rich, moisturising bio-emulsion based on phospholipids, recommended for allergic, atopic, dehydrated skin with disturbed barrier function. Creates derma membrane structure imitating the structure of the epidermis. Does not disturb continuity of the lipid layer of the epidermis. Replenishes deficiency of physiological skin components. Intensely moisturises and reduces transepidermal water loss. Visibly soothes irritation. Fragrance- and colourants-free.

Key ingredients: ceramides 1, 3, 6II, phytosphingosine, EFAs of olive, macadamia and cotton oil, squalane, cholesterol, triglycerides of fatty acids - caprylic and capric, vitamin E, coconut glycerides, canola oil.

DIRECTIONS: Apply on skin under the eyes and on eyelids and delicately pat in. Avoid direct contact with conjunctival sac.

PROVEN EFFECTIVENESS*:

improvement in skin smoothness: 44%

reduction in skin roughness: 42%

*results proven in in vivo test after 28-day use

index 15121, ean code 5901887030775

med lipid formula physioderme cleansing gel 200 ml

natural origin index 98%, vegan, gluten-free, microplastic-free

Active emulsion based on delicate cleansing agents, recommended also for eye make-up removal. Effectively cleanses the skin. Does not disturb skin natural protective layer. Does not dry the epidermis. Soothes irritation. Key ingredients: sodium cocoyl isethionate – delicate, moisturising cleansing agent, provitamin B5.

DIRECTIONS: Apply the gel on a cotton pad and cleanse the skin with circular motions without the use of water or wash the skin with a small amount of gel and water.

index 15118, ean code 5901887030782

med lipid formula physioderme cream 50 ml

natural origin index 95%, vegan, gluten-free, moisturising and nourishing formula, microplastic-free

95 % ingredients of natural origin

Rich, moisturising bio-emulsion based on phospholipids, recommended for allergic, atopic, dehydrated skin with disturbed barrier function. Does not disturb continuity of the lipid layer of the epidermis. Intensely moisturises and reduces transepidermal water loss. Visibly soothes irritation.

Key ingredients: ceramides 1, 3, 6II, phytosphingosine, EFAs of olive, macadamia and cotton oil, squalane, cholesterol, triglycerides of fatty acids - caprylic and capric, hyaluronic acid, vitamin E, coconut glycerides.

DIRECTIONS: Apply on skin and delicately pat in.

PROVEN EFFECTIVENESS*:

increase in skin lubrication:

forehead: 30%, cheeks: 28%, eye area: 29%, neck: 22%

improvement in skin smoothness: 39%

reduction in skin roughness: 35%

*results proven in in vivo test after 28-day use

index 15036, ean code 5901887030768

med lipid formula physioderme cleansing base/dispenser 400 ml

natural origin index 95%, vegan, gluten-free, microplastic-free

Delicate cleansing base recommended for adults and children. Gently cleanses the skin. Spreads easily. Restores skin smoothness and softness. Prevents excessive epidermis dryness. Intensely moisturises.

Key ingredients: ingredients with hydro and lipophilic properties: ceramides 1, 3, 6II, phytosphingosine, EFAs of macadamia and cotton oil, squalane, provitamin B5, glycerine.

DIRECTIONS: Apply a small amount on skin and rinse off.

index 15041, ean code 5901887030805

med lipid formula physioderm body balm 400 ml

natural origin index 98%, vegan, gluten-free, moisturising and nourishing formula, microplastic-free

Rich, moisturising bio-emulsion based on phospholipids, recommended for allergic, atopic, dehydrated skin with disturbed barrier function. Intensely moisturises and reduces transepidermal water loss. Visibly soothes irritation. Does not disturb continuity of the lipid layer of the epidermis.

Key ingredients: ingredients with hydro and lipophilic properties: ceramides 1, 3, 6II, phytosphingosine, EFAs of olive, macadamia and cotton oil, squalane, cholesterol, triglycerides of fatty acids - caprylic and capric, vitamin E, coconut glycerides, shea butter.
DIRECTIONS: Apply on skin. Leave until absorbed.

index 15039, ean code 5901887030799

med atopic skin dermatological formula

med atopic skin face cream soothing moisturising 50 ml

natural origin index 90%, vegan, gluten-free, moisturising and nourishing formula, microplastic-free

90% ingredients of natural origin

Soothing face cream with moisturising properties. Recommended for atopic skin prone to irritation and severe itching. Restores natural hydrolipidic barrier of the epidermis. Softens and moisturises the skin. Reduces skin dryness and excessive itching. Soothes irritation and prevents its recurrence. Contains only the essential components of the formulation.

Key ingredients: ingredients with hydrophilic and lipophilic properties: corn syrup, allantoin, urea, ceramides 1, 3, 6II, phytosphingosine, cholesterol, triglycerides of fatty acids - caprylic and capric, vitamin E.

DIRECTIONS: Apply onto cleansed skin and delicately pat in. Use at least twice a day.

index 15043, ean code 5901887030423

med atopic skin bath & shower oil nourishing 270 ml

vegan, gluten-free, microplastic-free

Bath & shower oil with moisturising and soothing properties. Recommended for atopic skin prone to irritation, severe itching and hypersensitive to allergens. Softens and gently cleanses the skin. Prevents epidermis dryness, itching and irritation.

Key ingredients: sunflower oil with vitamin E.

DIRECTIONS: May be used for face and body. Avoid eye area.

Shower: Apply a small amount and rinse off thoroughly.

Bath: Pour 2-3 cups into warm water. After the bath, dry the skin without rubbing.

index 15045, ean code 5901887030430

med atopic skin nourishing body lotion 400 ml

natural origin index 95%, vegan, gluten-free, moisturising and nourishing formula, microplastic-free

95% ingredients of natural origin
