

## Parapet and Cornice Hooks

Optional Stand-off Bracket

All hooks are approved for parapet loading

**WARNING:** ONLY 3/4 in. thick Cornice Hooks are approved for point loading!

### Description

**Economical!** The low cost solution for parapet rigging.

**Strong!** Parapet Hooks are flame cut out of 1/2 in. high strength steel plate and Cornice Hooks out of 3/4 in. thick plate. Available in sizes from 9 to 32 in.

Parapet Hooks are designed for parapet loading only. 3/4 in. Cornice Hooks are suitable for parapet and point loading.

To move the suspension point a little further away from the wall, an adjustable stand-off bracket is available.
